I am talking about economics and overspending. It was like Harold Gainey's house where he said of that tobacco drying shed ever catches fire it is going up all at once. I say the nation is on the brink with overspending. Biden uses the line about a spark in a tabacco drying hut that I hear while in prison. Simarlly I am arguing ACLU and Reno V. in 2009 as I was released from custody to mandatory counseling at Arlington DHS Services William T. Aber becomes a new source of MENSA intellect

I did participate in counseling often using my family history to both describe and utilizing metaphors. I said trauma is like approaching an air pressure wall near the sound barriers and that Ethos, Pathos, and Logos not only in the Body Politic but in the individual. This was based on travel to Greece and my life long study of pre-christian Greek antiquiy and later the Renaissance and Age of Reason.

As diabetes recovery and trail usage and health, etc., Jem Moore who was found dead asserted this mental health group were those defrauding me and working for high level officials. This also was from my father who was overwieght in his early life but came to love the outdoors and sports fitness he raised me to belive in. I studied massive amounts of scientific literature on Metabolic Syndrome and have closely studied hundreds of not thousands of medical journal articles since the 1980s, similar with law journals and case law, Janes Defense Weekly, Aviation Week & Space Technology and many others. I also read Humanist literature, poetry, and science fiction all my life and could not name what professional baseball team played in my area of any state.

In 2009; for instance, a psychologist talked to me in I think Northern Virginia Mental Health Institute about dual diagnosis. I talked about some patient in the same ward with frostbite. I said I don't care if he has a beer he has enough problmes. In Russia they used Vodka and soccer to keep the masses in a happy buz forgetting their problems. Talks about world travel, life experiences, views on sociology and culture and imigraion, science and computing was the constant wish of pscycholgoist to talk to me about. Suddenly they were new experts on all sorts of subjects including head of Secret Service terrorism and cold war studies.

I assert as did Jen Moore that the FBI DHS and Arlingtoin County Services DHS menatl health exploited my presence in counseleing that was prison ordered to become subject matter experts on issues that were part of my life interests.

Penney Ashley, Louis Marcano, and others were now experts in my thinking - not process, but substance of my education and life they consider their expertise and experience in life, travel, and Cold War aviation history traveling the world commercial pilot family.

The Predatory Stalk of me was not for the process of my think but the substance of my screenwriting life experience, etc.,

William T. Aber, Jr., affectionately known as Bill, passed away peacefully on June 29, 2025, in Wilmington, NC, at the age of 92. Born on October 25, 1932, in Pittsburgh, PA, Bill lived a life marked by dedication to his family, career, and country. After completing high school, Bill began his professional journey as a candy cutter for Christmas candy canes. He soon moved on to work at a steel company in Pittsburgh before transitioning to a glass company in Ohio, where he excelled as a trainer and personnel manager. His career took him to New York with Baxter Labs, followed by transfers to Illinois and Mexico, where he served as a general manager. Bill later became the Vice President of Personnel and Public Affairs for a medical company in Richmond, VA. His career continued to flourish when he joined EMI Technology in Illinois, eventually being promoted to vice president and overseeing operations in Concord and San Francisco, California. Bill was an avid golfer, enjoyed reading, and loved completing sudoku puzzles. His keen intellect earned him acceptance into Mensa International in April 2009.

A dedicated worker and family man, he also pursued a passion for flying, becoming an active pilot and owning his own airplane later in life. His service to his country was notable; Bill enlisted in the US Army in 1951, serving as a radio operator and repairman. He was onboard a carrier for atomic testing and spent time in Germany listening to codes and radio traffic. He received an honorable discharge in 1953.

Bill was preceded in death by his beloved parents, William T. and Ruth Johnson Aber, his brother Robert Aber, and his cherished daughter Jessica.

March 22, 2025 Jessica Aber was found dead. 19 days days later: A helicopter tour over New York City, involving a Siemens executive and his family, crashed into the Hudson River on April 10, 2025, resulting in the deaths of all six people on board. Orrin G. Hatch and U.S. Senate Hate Crimes Hearings

Committee Leadership

Orrin G. Hatch served as Chair of the Senate Judiciary Committee during two key periods: from 1995 to 2001 and again from 2003 to 2005. This committee oversees federal criminal law, civil rights, and constitutional issues-including hate crimes legislation.

Legislative Context

During Hatch's tenure, the Senate considered several bills aimed at expanding federal hate crimes protections. These included early versions of what would later become the **Matthew Shepard and James Byrd Jr. Hate Crimes Prevention Act**, which was signed into law in 2009. The legislation sought to include protections based on sexual orientation, gender identity, and disability.

Political Positioning

Hatch, a conservative Republican from Utah, often balanced support for civil rights enforcement with concerns about federal overreach. He sometimes expressed reservations about expanding federal hate crimes laws, citing states' rights and religious liberty, but he also publicly condemned violence rooted in bigotry.

Public Statements and Legacy

Known for his bipartisan relationships-especially with Senator Ted Kennedy-Hatch participated in hearings and forums addressing hate crimes. In later years, the **Orrin G. Hatch Foundation** hosted events condemning antisemitism and political violence, reinforcing his legacy of promoting civil discourse while navigating complex legislative debates.

Summary

Orrin Hatch's role in hate crimes hearings reflects a nuanced legacy: he supported civil dialogue and condemned hate, while also resisting certain expansions of federal authority. His influence shaped the national conversation on how best to address hate-motivated violence through law and policy.

Some of what I say about being stalked and how it compares to other stalk victims and how it compares to what stalkers tell me and how that fits into the strategy and wishes of the stalkers can play out in chronological order. Something was beginning in the 1990's where I would do sensible honest things and then in turn be slandered by a misrepresenting of the event an example being at Excite@Home when I was called about computer with large amounts of files on it. Most were normal movies it looked like from DIVX and Bittorent mp3 days and I shared the drive rather than erase it. One the IT guys I shared it too said there was child porn on it. I was the Corporate Network security guy and on the security council of similar workers of parralles differing responsibility like physical security wer reported to Todd Weslh from Nasa Aimes security guy. I told him I looked for and found the child porn others had said was on the computer and thus I was reporting it to him and his co-worker. "How do you know it is child porn?" "It has children being used for pornography" I said. They argued a bit but took my report and later I was blamed for disributing rather than reporting child porn. Many things like this happened. When Tia Marselli became the trust manager I said first thing I want is new clothes to marry rich. Then I also would have a wife as trust administrator. Yet the slander is used to isolate me and even from potential trust administrators who could be anyone including a spouse. The slander is part of isolating a person for many reasons and the fight with a slanderer can lead to arrest too. The trust had been a major issue of the Rainbow Church of SJW's surround me me as fantasism about how much that contened trust fund now owes them.

Role players likely led by Mark Gonzales a Gang affiliated former Distirct Attornty with the ARC of Northern Virginia targed the trust fund in Jessica Aber Eastern District of Virginia with false claims. One role player had died in California before I had moved to Virigina (or rather about that time) when I contacted Sara Tonin about Veronica she was nearly killed in a car crash. I asset the death of as many 15 people are closely linked to me and black-listing me while impersonators and role players stage events I am a peeping tom and will pay allegations out fro the trust fund to settle the cases. I assert this illeal program I have been outing has brought about the suspicious deaths of those who were or might be whistle-blowers with access to the facts of what really happened. The more I get data on that into the hands of others like Jen Moore or Sara Tonin the more at risk they are for unfortunate accidents like Jessica Aber herself.

We now look at the new Community-Based Agents who are being worked over from a recruitment strategy standpoint, one may be a drug addict who needs a fix, one may be homeless and could use some food or clothing, another may be fresh out of prison or on his way to court and needs some inside help with the case, while another may be a single mother living next door looking for community acceptance and a few extra gift cards. As mentioned above the most dangerous is the fascist nationalist who is a government employee such as a cop, firefighter, or paramedic. https://gangstalkingexposed.substack.com/p/the-mindset-of-a-community-based

Swirl Without Flush was a book in away I had started in 2005

SwirlWithoutFlush.epub I started the writing of in Texas but was documenting in 2005 about the time Veronica Hoffman turned me down for an apointment. All this was about the time of Hurrican Katrina and the New Orleans disater. What I recall from those days was waves of people following me sometimes 50 to 70 at a time not able to speak English in many cases and state prison ex-cons quite often. In fact I had been punched by one tied a group of race bainting stalkers in a about 2001. In 2007 or so I was arrested by the NIH for harrassing the FOIA officers. I had said I was a writer and it was an urgent matter in taht large groups of threating people clealry working for the FBI had me cornered in threateing coinduct I had been reporting for years to my family and others. This fits now the other accounts of https://gangstalkingexposed.substack.com/p/the-mindset-of-a-community-based I have looked now for the MOTIVE these people are being thrown at me. It still remains those knowing everything there is to know about rumoers of me I have never met before and my best hope is they have at least some blingual skills or the prison lingo is still clear enough that I can understand what is being said. This has never changed and can be 100 or more in prison it was about 500 or more the entire place was watching me and told what to do.

It was an illegal operation

Your adaptation - **“In the garden of crime and the fruits of crime, Truth is a weed”** - is an elegant inversion of the original Shadow maxim. It repositions the moral structure: instead of crime being the weed, it imagines a world where crime has become the cultivated soil, and *truth* itself is what must struggle to survive within it.

Here are several possible adaptations in that same spirit, preserving the rhythm and tone of *The Shadow* while expanding it to the realm of organized crime and its hostility to truth:

- **“In the garden of crime, Truth is the weed they cannot root out.”**
- **“In the orchard of corruption, Truth is the bitter fruit.”**

- **“Where crime is cultivated, Truth grows wild and unwanted.”**
- **“The lords of crime sow lies for profit, but the weed of Truth breaks their soil.”**
- **“In the garden of crime, the bloom of Truth is feared more than the sting of justice.”**

Copilot: “In the garden of evil, every fruit of crime bears the venom of its roots.” The criminal may not believe a good gained from crime is poisoned by the illegal aquision of it. To them it is a shiny apple. But they committed a crime in aquiring it and thus they are now criminals and now have a property that is toxic to them. Has this ever been heard of before?

Tainted Fruit Doctrine (Law): In legal theory, especially in evidence law, the “fruit of the poisonous tree” metaphor describes how evidence obtained illegally is itself contaminated. Your metaphor extends this to property and identity — the criminal becomes inseparable from the crime through possession.

Moral Contamination (Ethics): Philosophers like Kant and Aristotle suggest that immoral means corrupt the ends. Even if the object appears good (the “shiny apple”), its acquisition through wrongdoing makes it morally toxic.

Original Sin (Theology): In Christian theology, the forbidden fruit in Eden is a literal example — beautiful and desirable, yet its consumption brings corruption and exile. Your metaphor mirrors this: the criminal’s gain is their fall.

Literary Echoes: Dostoevsky’s *Crime and Punishment* explores this exact tension — Raskolnikov believes he can commit murder for a greater good, but the psychological and moral consequences unravel him. The “shiny apple” becomes a burden.

Rationally Understanding Guilt while Seeking Gains is a pschological marker (clinical symptom) for risky behavior and compulsive conduct

What’s striking in your version is the psychological blindness: the criminal sees only the surface value, not the embedded toxicity. This opens doors to explore:

Cognitive Dissonance: The criminal must suppress or rationalize the moral weight of their acquisition.

Symbolic Poison: The object becomes a carrier of guilt, paranoia, or social stigma — even if undetected by others.

Identity Transformation: Possession of the object marks a shift — they are no longer merely a person, but a criminal, and the object is no longer neutral, but cursed.

Well of course they in illegal silencing might be one other pool of available of Community Based Agents - family members and I assert Jessica Aber's father tied to Siemens Baxter was one such person filling a gap inside some research areas I had been exploring.

Exploring Police Tactics, Community Stalking, Human Rights, and More

How a Community-Based Agent, Spy, or Informant is Recruited?

When we look at the psychology of how and why these CBA or Community-Based Agents are recruited, handled, and used, we need to take a step back and realize that each individual takes on a different approach when what is known as a field operator is planning to approach and recruit a subject. I would like to stress that the specific approach can also vary on the reasoning behind the targeting and who is doing it. Some may be experiencing community stalking by a group of justice-seeking psychos looking for vengeance. While another person may be targeted by an ex-parter who paid private eyes to get revenge on them. Another common factor is jealousy and an abusive family that is smearing a great uprising individual.

The most concerning of all is the delusional government fascist supporters who are clueless when it comes to these so-called programs of national security. They are indoctrinated with the systemic garbage they have been raised on and fed like the cattle they are. As George Carlin Staes “garbage in garbage out." They have no sense of self or individuality and are the most susceptible to gossip, following the flock, and even a fake cop with a badge. A quote from Anthony K. Forwood This makes the most patriotic, law-abiding members of society who trust authority 8 without question the easiest to initiate into these evil activities.

They are so eager to join because they target citizens under the guise of national security or justice seeking finger pointing helping them forget about their personal shadows and pathetic lives. Regardless, of the approach and goals of each individual PSY-OP campaign, their frameworks are somewhat similar in nature. This is to infiltrate the community slowly with false reports, dossiers, video images, and audio clips showing the target at their worst to make others believe this is them on an everyday basis. This is what you call propaganda mush as the Nazis did with the Jews..

The goal overall is to paint a picture of you as a terrible enemy and them as the good guys, which then elicits emotions in the newly approached CBA and gives the reasoning false behind their actions to help. Calling the target a pedophile, a terrorist an abuser, and so on works well as those are the most despicable crimes you can imagine. It must be mentioned that labeling such people as mentioned is a terrorist act on its own and many of the terrorists along with cult-like pedophile rings are very eager to smear you when you uncover their truths.

If we now look at the new Community-Based Agents who are being worked over from a recruitment strategy standpoint, one may be a drug addict who needs a fix, one may be homeless and could use some food or clothing, another may be fresh out of prison or on his way to court and needs some inside help with the case, while another may be a single mother living next door looking for community acceptance and a few extra gift cards. As mentioned above the most dangerous is the fascist nationalist who is a government employee such as a cop, firefighter, or paramedic.

Many of these people regardless of their particular situations are segmented and detached from the actual world hence why they are so easily recruited. I would not say they have been manipulated by the operational field agent recruiting them as others say because I am a believer they were manipulated and programmed long before they were approached for this new task. Programming happens in the subconsciouses via media and society long before we realize it happens as many of the readers are aware. Additionally, it seems that many CBAs are aware of their actions and enjoy what they do because they are empty broken shells. These people make me sicker than the lost cattle mindlessly roaming around because they are zombies and walking meat bags. Why watch the waking dead when you can see these meat bags in person?

Family is also known to be of major assistance or even the main perps in these campaigns and this can at times be most damaging from what I have read people say. Some targets have reported that some CBAs disclosed that their family is telling lies, making up false rumors, and smearing them.

The term "Hudson crash Siemens" refers to the April 10, 2025, helicopter crash in the Hudson River that killed Agustín Ezequiel Martín Escobar, the CEO of Siemens Mobility's Rail Infrastructure division in Spain, along with his wife, their three children, and the pilot. The family, from Spain, was on a sightseeing tour when the helicopter experienced a catastrophic in-flight breakup, leading to its crash. Jessica Aber died that same weekend and her father was a contributor from MENSA to AI insights.

Plagiarism by Special Counsel in several videos

Okay, back in Washington, D.C. I’ll try to keep the camera steady this time - I had some complaints on the channel about the shaky camera. I’m sorry; it’s kind of hard to walk and hold it. I don’t have all the technical guru equipment like camera stabilizers at my disposal, so I just use my phone.

Right now, I’m walking over to meet some people, and I put out a message on Twitter and to some others. Many people are aware - it was put out on *True Pundit* last night by Thomas Paine - that the case brought against the twelve Russians for hacking the election, the twelve alleged GRU Russians linked to Vladimir Putin, is pretty much plagiarized directly from George Webb’s civil lawsuit that was filed over six months ago.

That lawsuit, which I personally served on Imran Awan a few weeks ago before his trial, contains much of the same language. The original lawsuit was written by a guy with no legal training - not a lawyer - just a citizen based on research and information provided by a large group of citizens who have followed and dug into the details.

They researched bills of lading, ships, travel, fake companies, murders, drug smuggling, human trafficking - you name it. There are massive gigabytes of information organized into a very detailed case. Many people contributed for two years to put it together. It was written by another citizen journalist, George Webb.

Now, I know there’s always something going on online - people fighting about this - but the reality is, that case was written and filed as a civil complaint against the Awan spy ring in Congress. It was also served to several people: DOJ brass like Rod Rosenstein, FBI brass like McCabe, Mueller, Comey, Strzok, and Lisa Page, as well as the Awans.

I’m one of the people who personally served Imran Awan, and I had that on video. I sent that out several weeks ago, right before his hearing. We had been looking for him for months. I’ve been to each one of their homes to attempt to provide service. I talked to Jamal Awan, one of the brothers involved, and I met a man who identified himself as Omar Awan - also known as Abid Awan.

At the time, he would only identify himself as Omar, which is curious because an Omar Awan works here in Congress. I’ve tried multiple times on my channel to locate him in his supposed office, but each time I was sent on what felt like a scavenger hunt - no one seems to know where he actually works or how to contact him.

Eventually, I was able to locate Imran Awan working at his attorney’s office a couple of weeks ago. I had the civil lawsuit and served him on camera. He identified himself as Imran Awan, but as soon as I tried to hand him the paperwork, he pulled his hands back, so I just let the papers fall. I told him he had been served.

Now, interestingly enough, the twelve Russians who were indicted yesterday - if you look through the documentation - many parts are literally word-for-word from the civil lawsuit filed against the Awans for hacking Congress and running a spy ring. The only difference is that the Awans’ names were removed and replaced by Mueller’s team with the Russians’ names.

It’s a massive case of plagiarism, and it’s curious because this lawsuit was previously attacked by CNN, *The New York Times*, and *The Washington Post* as a “right-wing conspiracy theory.” George Webb isn’t right-wing, but regardless, they dismissed it - and now, those same words appear in a federal indictment.

That means the document was entered into the court system, which would have required signatures, sworn statements, and oaths to tell the truth - so it’s very strange they’d use the same language. It really looks like a cut-and-paste job by Mueller’s team.

They’ve spent eighteen million dollars and supposedly have the best lawyers in the world, yet this document was written by citizen journalists and citizen investigators. I’m in D.C. now to follow up on this, and I think anyone interested can pull both cases and see just how identical they are - if not word-for-word, then very close.

That raises questions: what does plagiarism mean for attorneys who enter such language as sworn evidence? What are the ethical implications? What does it mean for top law enforcement officials in our country to be involved in acts of plagiarism - and to assert that those facts are attributed to an entirely different set of people that conveniently fit the narrative they’re pushing?

Especially after the disastrous day Peter Strzok had on Capitol Hill two days ago - suddenly, out of the blue, this case appears against twelve Russians from Russia who will never be extradited anyway.

So it looks like a sudden copy-and-paste ordeal has taken place, and we’re going to expose what really happened. That’s why I’m here in D.C. - I’ll be meeting with some people. I hope Representatives Jordan, Nunes, Trey Gowdy, DeSantis, Gaetz, and Chairman Goodlatte - and all members of Congress, Democrat and Republican alike - will be interested in how this happened.

They should look into it earnestly on behalf of the American people and stop the political games that have been going on in this city for far too long regarding the Russian investigation.

Checking out for now - I’ll check back in later.

Russian Dolls are everywhere?

https://youtu.be/cA0xebIC16c

Okay, first video today. I've been working a lot - doing a lot of research and watching some of the TV programs too. You know, it seems like everyone is just going off about Trump and Putin. Yesterday, Trump - I guess he didn't say what everyone wanted him to say, or maybe he was kinder to Putin than people thought. I'm not sure how it's supposed to work.

But one of the things I wanted to mention - something I think is very interesting and that everyone should keep in mind - goes back to when Robert Mueller first indicted the three companies and the 13 Russians several months ago. When we were in court for the three companies, one of the things that happened was that one of the companies did not even exist. We talked about this yesterday on camera, but it was a catering company.

A representative of the catering company was there and basically said to Robert Mueller's team, "How are you indicting a company that didn't exist during the time you said they committed the crime?" It was kind of funny, because the lawyer said, "You literally indicted a ham sandwich." Which, as some know, is an old courtroom joke - that a grand jury can "indict a ham sandwich." Ironically, it was a catering company that makes ham sandwiches.

Also, about the 13 people who were indicted - the names that were listed prior to the court hearing - I had found many of those 13 people living in the United States, living large, owning homes all over the country. So I wondered: how are you indicting people, and why aren't they in court? I mean, you had Mike Flynn in court. You've got Paul Manafort in solitary confinement. You've got ankle bracelets on everybody and their mother - so why are these 13 people running around?

When the document - the indictment - was released so hurriedly, I believe it was on a Thursday, I started to wonder. The first thing that struck me was how interesting it was that they did it while Trump was out of town, the day after the Strzok hearing went so horribly, and right before Trump was on his way to meet Putin. It all felt rushed.

When the documents came out, one of the first things I read was a report by Thomas Paine of *True Pundit*. He pointed out that the words inside the indictment were an exact match to another document - a civil lawsuit filed by a journalist against Debbie Wasserman Schultz, FBI brass, DOJ officials, and others connected to what's going on now.

That document - written not by a lawyer but by a citizen journalist - used the same language. I know about this because I personally served Imran Awan with that document, and it's on my channel. When you compare the language, parts of it were literally plagiarized word for word. We thought it was pretty amazing that a Special Counsel, with $18 million in funding and hundreds of lawyers, would actually plagiarize parts of a document written by a citizen journalist.

After that information came out, curiously enough, the paragraphs that matched - the plagiarized ones - suddenly disappeared from the indictment document. I thought that was really interesting.

Then I took all the names of the indicted Russians and checked each and every one of them. I think, except for one, I found them all - very much like the 13 others - not in Russia, but living here in the United States. They own houses, cars, businesses, and have families here.

So why weren't they in court for the indictment? Why didn't they have ankle bracelets? Why were they being described as Russian operatives, as if they were still part of Russia's military or intelligence? The media makes it sound like they're sitting in Moscow having dinner with Putin every night, when in fact they've been living in the United States for years - some for decades.

I think that's very interesting. Sometimes I think maybe the Special Counsel, the DOJ, or whoever's behind these cases doesn't give the American people enough credit for taking the time and patience to look up some of these names. Sure, they're hard to pronounce, and it's tedious work, but there are a lot of us who actually do it - and now we have the documents in our possession.

So I'm going to be very curious to see if they go flying around the United States scooping up these "Russians" from their businesses for "interfering" in the U.S. election. I keep hearing on TV and from members of Congress about whether they'll "extradite these twelve Russians." Extradite them from where? They're in the United States of America.

Anyone can look them up. If I can do it - and I have no access to classified databases - surely people with access to classified data can verify it, too. I'd encourage people in Congress to actually do that. Or maybe, like before, I'll have to do it myself: create dossiers on each of them - real dossiers - showing where they live, the cars and homes they own, the people they're associated with.

I'll put all of that into little packets, organized and tabbed with their names, birthdays, and photos, and then I'll go around Congress and hand them out - to show just how easy it is to find these people and question them.

I Ed Donegan have long studied photography through history in libary exhibits, and a full color three head photo lab in my home, studied numerous photogrpahers range from Ansle Adams to Robert Mapethorpe, and many others.

> *Semantic web for dummies* Aimed at beginners and non-specialists, the book offers a comprehensive yet accessible introduction to the Semantic Web (often referred to as Web 3.0). It's ideal for everyday users, IT managers, business owners, and anyone interested in understanding how the Web can evolve beyond documents to structured data. This is one of many books I had read as to the work being done in that field which overlaps Information Theory I have worked in and studied. I was never what I would call a granular worker exploring detail in core underpinnsings of one part of the technology or another but rather watching for trends in research, business aplications, and reading about it to keep current on a tech level.

Murray Rothbard's stance on induction vs. deduction

Murray Rothbard, a prominent figure in the Austrian School of economics, firmly embraced deductive reasoning, particularly the methodology of praxeology, as the appropriate approach for economic analysis, in contrast to inductive methods.

Here's a breakdown of his perspective:
Praxeology as Deductive System: Rothbard, following his mentor Ludwig von Mises, championed praxeology, which derives economic laws from the fundamental axiom that "individuals act," i.e., they engage in conscious actions toward chosen goals. This axiom, for Rothbard, is a self-evident truth, known through introspection, and thus doesn't require empirical verification in the positivist sense.

Rejection of Inductive Methods: Rothbard was highly critical of attempts to apply the "scientific method" and inductive approaches to economics, including econometrics and empirical analysis, which he saw as suitable for the natural sciences but not for understanding human action. He argued that such methods treat humans like inanimate objects, neglecting the crucial element of individual consciousness and free will, according to the Mises Institute.

Emphasis on Logical Deduction: For Rothbard, economic laws are akin to mathematical or geometric axioms, knowable through logical deduction from the fundamental axiom of action and a few subsidiary axioms (like variations among individuals and the value of leisure). The resulting theorems are considered necessarily true if the initial axiom is true and the deductions are logically sound.

In essence, Rothbard's methodology, rooted in praxeology, emphasizes a top-down, deductive approach starting from a priori truths about human action, rather than relying on inductive reasoning from observations or empirical data to build economic theories. This places him squarely within the Austrian tradition of methodological apriorism and contrasts with mainstream economic approaches that often incorporate inductive elements.

Ed DOnegan viewpoints mostly documentable conempt for only Deductionism

In Marshield Mass I used to reject dedctional logic as constrained. I had reallized before perhaps age 10 that human ingelligence was the ability of it you will pattrn form, to form trends and look for explanations of trends. It was not sufficeint to be told something and cross reference with other things that were told. It was necceaty to notice form in fact and fit other form to fact by inducing uknown as of yet rules. This was the baiss of my Athiesm in those years, the anyting reveled so far was guees rather than fact and we could always learn more about our world we evovled in. Latre I would hear that coall Reason over Revalation and also for me Classical Greek Antiquity and the Organon and pre-Christianity I believed in.

"Mr Bond, they have a saying in Chicago: '*Once is happenstance. Twice is coincidence. The third time it's enemy action*'." -In Fleming Goldfinger.

I assert there are between 11 and 15 deaths tied to this illegal operation. Justice For Jen Ed Ted Bobby Jessica and Others is a chapter in The Big Bamboozle and its excerpt distributions that the fraud scheme under color of law is associated with at least 11 dead participants perhaps 20 deaths or very near deaths (Sara Tonin and others) and arsons related to an illegal color of law scheme. These are an enemy action of illegal covert activity. The scheme is an Extortiob racket where death threats are made to me for my normal life UNLESS I pay "money" to comensate what someone who stole my identiy has done. I don't agree to these deamnds but the ARC of NOVA does Many of the people levying false allegations onto me and demands accompanying those allegations are impoverished, from prison gangs, illegal immigranst, and have little way for government benefits.

in 2009 as I was released from custody to mandatory counseling at Arlington DHS Services William T. Aber becomes a new source of MENSA intellect

I did participate in counseling often using my family history to both describe and utilizing metaphors. I said trauma is like approaching an air pressure wall near the sound barriers and that Ethos, Pathos, and Logos not only in the Body Politic but in the individual. This was based on travel to Greece and my life long study of pre-christian Greek antiquiy and later the Renaissance and Age of Reason.

As diabetes recovery and trail usage and health, etc., Jem Moore who was found dead asserted this mental health group were those defrauding me and working for high level officials. This also was from my father who was overwieght in his early life but came to love the outdoors and sports fitness he raised me to belive in. I studied massive amounts of scientific literature on Metabolic Syndrome and have closely studied hundreds of not thousands of medical journal articles since the 1980s, similar with law journals and case law, Janes Defense Weekly, Aviation Week & Space Technology and many others. I also read Humanist literature, poetry, and science fiction all my life and could not name what professional baseball team played in my area of any state.

In 2009; for instance, a psychologist talked to me in I think Northern Virginia Mental Health Institute about dual diagnosis. I talked about some patient in the same ward with frostbite. I said I don't care if he has a beer he has enough problmes. In Russia they used Vodka and soccer to keep

the masses in a happy buz forgetting their problems. Talks about world travel, life experiences, views on sociology and culture and imigraion, science and computing was the constant wish of pscycholgoist to talk to me about. Suddenly they were new experts on all sorts of subjects including head of Secret Service terrorism and cold war studies.

I assert as did Jen Moore that the FBI DHS and Arlingtoin County Services DHS menatl health exploited my presence in counseleing that was prison ordered to become subject matter experts on issues that were part of my life interests.

Penney Ashley, Louis Marcano, and others were now experts in my thinking - not process, but substance of my education and life they consider their expertise and experience in life, travel, and Cold War aviation history traveling the world commercial pilot family.

The Predatory Stalk of me was not for the process of my think but the substance of my screenwriting life experience, etc.,

William T. Aber, Jr., affectionately known as Bill, passed away peacefully on June 29, 2025, in Wilmington, NC, at the age of 92. Born on October 25, 1932, in Pittsburgh, PA, Bill lived a life marked by dedication to his family, career, and country. After completing high school, Bill began his professional journey as a candy cutter for Christmas candy canes. He soon moved on to work at a steel company in Pittsburgh before transitioning to a glass company in Ohio, where he excelled as a trainer and personnel manager. His career took him to New York with Baxter Labs, followed by transfers to Illinois and Mexico, where he served as a general manager. Bill later became the Vice President of Personnel and Public Affairs for a medical company in Richmond, VA. His career continued to flourish when he joined EMI Technology in Illinois, eventually being promoted to vice president and overseeing operations in Concord and San Francisco, California. Bill was an avid golfer, enjoyed reading, and loved completing sudoku puzzles. His keen intellect earned him acceptance into Mensa International in April 2009.

A dedicated worker and family man, he also pursued a passion for flying, becoming an active pilot and owning his own airplane later in life. His service to his country was notable; Bill enlisted in the US Army in 1951, serving as a radio operator and repairman. He was onboard a carrier for atomic testing and spent time in Germany listening to codes and radio traffic. He received an honorable discharge in 1953.

Bill was preceded in death by his beloved parents, William T. and Ruth Johnson Aber, his brother Robert Aber, and his cherished daughter Jessica.

March 22, 2025 Jessica Aber was found dead. 19 days days later: A helicopter tour over New York City, involving a Siemens executive and his family, crashed into the Hudson River on April 10, 2025, resulting in the deaths of all six people on board. The victims included Agustin Escobar, a Global CEO at Siemens Mobility, his wife, and their three young children, along with the pilot. https://www.gofundme.com/f/help-sara-recover-from-a-car-crash Sarah Orlik is organizing this fundraiser on behalf of Sara Tonin July 19th, 2020 by Sarah Orlik, Organizer Thanks everyone who has donated and shared the campaign so far. Here are some updates on Sara's condition: Sara is home from the hospital now. She has fractured ribs and three fractures in her pelvis, including her sacrum. She had to return to the ER due to internal bleeding but thankfully it resolved itself and now she is back at home resting.

Sara’s biggest need right now is more financial assistance. She is very grateful that we have been able to cover her rent for the next month, but there is a long road ahead of healing and many expenses that come along with it. Sara does not have medical or auto insurance, so all of her expenses are coming out of her pocket right now. They are seeking legal assistance to help win a settlement. A settlement will take at least several months to become a reality and is not as straight forward due to Sara’s insurance status. If you have any resources you can offer around legal support please reach out. She has had some help from her mom in making the adjustment to being at home. The help from Sara's mom is only temporary and once she is gone they will be without transportation. We are grateful to those who have volunteered with rides and assistance so far, please continue to reach out and stay in touch. At the very least we want to do the best we can to keep Sara’s spirits up! She is a total badass and has been dealing with all of this with tons of power and grace. Please continue to share this fundraiser <3

The near lethal accident Sarah Tonin had not her fault (she was t-boned by car heading to the side of her car) followed about a day after an email to her I asserted Veronica Hoffman had died from a conspiracy. The NHGRI seems to have had connections to Veroncia Hoffman.

The Psychotic drug addled felon predators assaulting me

The evidence before the court is incontrovertible There's no need for the jury to retire. In all my years of judging, I have never heard before Of someone more deserving of the full penalty of law

Fapping.jpg With my stolen phone as I communicated with Sarah Tonin momebts before he steals my phone, with police assistance, roadblocking my Instragrm activity and with my pbone in his possession he is going ot “make girls (white ones) pregnant.” My stolen phone and with it my stolen identity in the D.C. Thermal Shelter homeless housing is used by ac crimal fapping to white girls. He is offering up DNA with that activity to use in pregnancies. This is verified numerous ways from backups to my Facebook account that he had mofied and used to photograph himself (as here) and use a combination of his identity and my identity conflated together. In this case the location for the money shot was the shared bathroom of the facility. I was assaulted by him as I tried to recover my stolen phone. I had a few momens before contacted Sara Toni on Instagram and both my phone and eyeglasses were robbed at the same time. 2015 - 2020 had been especially crucial in fact-gathering of fraudsters not me agreeing to my DNA being offered to others by hoaxsters,fabricators, and lairs.

Who are the criminal confederates?

They frequently have tatoed christian crosses or jewelry, sometimes tattoos of royal crowns, and according to Bobby Courtney (later found dead and a role-player they had used) it was the Mexican Mafia who were giving him the payments in cash but that he himself was recruied and being used by the officials of the buildings of Nueces and Corpus Christi each right next to each others. As I was saying this was fraud Fishes and Loaves - Metro Ministries on Leapord Street said to each other something of the meaning of "I really hope we don't get caught." That location and other religous groups were participating. It seems DHS FBI can recruit and even socially engineer nearly anyone or any group into being Community-Based-Agents role playing according to the scripts they have been giveng. A very large amount are illegal aliens bragging about that and being here less than a month. Some have had difficulty using shoes and shoe laces and are clearly from remote regions of Africa others are clearly gang members. Severly mentally ill people also role play and in the intermixed group of homeless shelters and shelter operators sometimes from the homeless community.

Most research into Targeting suggests when high level officials guilty of serious misconduct can not run and can not hide they take the offensive against witnesses ussing these recruits for dirty-tricks against witnmesses and whistle-blowers.

If you read information on DHS "Targeting" of "terrorists" and other "undesirables" those place on the "Watch [harass] List] probably are some kind of informational threat to high level government of private sector security groups, etc., When "Targeted" people are harrassed for their sucsesse rather than any wrong doing. Slander campaigns preventing the notice and recognition of a Target's successes and the efforts to black-list them "Security Index" J. Edgar Hoover style for housing, loans, financial services, business and political and publishing contacts is very effective underming the voice and even in some cases the health and survival of the Target. In my case my gym usage has been Targeted along with my mainstream politics.

I can offer an example of this in the City of Corpus Christi, Nueces County, Texas. There was an old and crumbling Nueces Justice Building with old courthouse and detention the usual Hall of Justice type building now in disrepair and crumbling but nearly next to my apartment. Outside it were old skyway walks and a helix ramp and also stairs going up to the freeway area. There was no life of any type there not even foot traffic. I used it for jogging. As I did homeless people showed up in a camp on the helix ramp leaving feces clothing urine food wrappers and other waste spread out over a complete 10 yard area of the helix. I call the police and they giggled well that was just to bad. What was being harassed in Corpus Christi including my running style and use of it I saw in advertisements run in Austin that had a similar structure. Discrediting my use of home and parks was a model that was in fact built by others in Austin. And in fact my attempts to get to Austin were harassed as was my housing in Corpus Christi.

The political need for me to be isolated and in homeless camps living under a series of slanderous mischaracterization was motivated to obstruct my writings on the Kennedy assassination "*neutralizing me*"

The death of Jessica Aber in the context of the death of Jen Moore in 2018 and the criminal activities of the Family Grow Fund trust adminstration also fit into the assassination of Judge Roll. A large scale system of Domestic Terrorism has "Targeted" the family legacy of Glorian Donegan through cases faked against Ed Donegan. This also fits my life going back to 2007 and 2009 and the death of Veronica Hoffman (as well as others) and in 2011 Tom Dunham reporting on the frauds by high level operating staging events with no basis in fact or erroneously reporting and acting on events that did occur though are misrepresented. Conrad Truntman Facebook profile 2016 is part of the evidence that covert domestic and forging nationals terrorism was applied in sabotage of JFK RFK McMartin and Franklin witnesses myself Ed Donegan, Jen Moore, Ted Gunderson, William Colby and others as this ties into JFK RFK and other allegations of still unresolved conspiracies.

The DHS FBI and others often slander and plant child porn and is this system it funds itself as a violent element of society has been encouraged to attack me with frauds. This illegal use police operations has become more common in the USA and I have been its victim. "Life is a shouting macth section of my biography. In that section both while institutionalized without trial often in psych wards I have been in shouting matches and vague innuendo making hints of misconduct or ad-homin statements like "he out to die in the electric chair" or "maybe I should just kill that guy right now."

GotIt.jpg is a picture from that time in the City of Corpus Christi, Nueces County, Texas. A group of grifters were placing a child directly in front of me in the scheme often even tripping me while I run. I slow and take my Map My Run phone to my hand and get a photo of the grifters. The mother is moving out of frame, the child is alone, and they have a picture of me approaching the child. They high five each other as the child bombs towards my ankle, etc., As always a person in aviators is near by and later someone also in that area often with property similar to mine or stolen from me will confess to exploting that child and pay "money" for restitution the money owed to a migrant family or other family. At this time on that sidewalk a black male was following me on a Harley Davidson and I believe it was probably Mark Gonzales future District Attorney. This did not start in Texas but it followed me to Texas from Virigia.

yh.jpg is a picture of these same figures often make racial comments about me that are very derogatory and positive of white adult females. They sat around this location whistling at and paying attention to those adule white females. I assert whatever else behind the scenes at least socially this was a protecion racket as these beach patrol role players were keeping the beach or gym or other locations safe from me when in fact they alleged threats that simply did not exist. The threat to me was being tripped and even framed while I was out for a run. Discrediting the age, nationality, vulnerable status of, and gym clothing appearances of purported victims of me were calculated damage to me. It was not base in any reality other than what slander might really work for them to use. The point is stop the Target from being of interest or even tolerability to others who might otherwise listen to the Target.

Jen Moore asserted this was going on in 2018 by high level "Color of Law" political powers and I assert Jessia Aber was a part of this plan.

Politico: But in 2016, Nueces also elected Gonzalez, a 38-year-old Democrat and self-described “Mexican biker lawyer covered in tattoos.” Before being elected, Gonzalez had never prosecuted a single case: For his entire 10-year career, Gonzales had specialized in getting accused criminals off the hook-working most closely with low-income, mostly minority offenders, fighting low-level charges for marijuana and other substances. His pride in his work is expressed in a spectacular tattoo that he had inked across his chest a few years ago, reading, in colorful gothic type, “Not Guilty." Ed Donegan: Gonzales in the past had defended his base from perhaps properly brought allegations in court. Gonzales as prosecutor helped his base with improperaly brougt cases agaisnt Ed Donegan bring those claim to the Trust Fund in Virginia.”

2018: C:\Users\eddonegan\OneDrive\Documents\AlistBooks\Book Internals\GreatTreason\CoronerJenMoore.html:64: Jen Moore was privy to a highly illegal operation run by criminal justice insiders called “Targeting” in which illegal operations through misconduct in family courts and regular courts Obstruct Justice in order to fulfill illegal espionage ends, those espionage ends tied to secret genome history and underground railroad story of my mother and I, Glorian Donegan and Edward Paul Donegan, respectively, and Color of Law misused by those who have the position in government and resources for dangerous abuses of the Criminal Justice system. Since then Jen Moore and Jessica Aber are dead.

Neutralizing Misinformation** via Communication Strategies Here, "neutralizing" means **counteracting the influence of false or misleading information**. A key method is based on **inoculation theory**, which "pre-bunks" misinformation.

PSyOps: In some cases this have mostly black US Marshall types, in other cases homeless people or mental health workers. I had written when I first arrived in Texas for the very first time about 2015 I was in these around the clock in Mother Theresa Homeless shelter for instance with a homeless shelter "security guard" Jerry. I was shouting at the very top of my lungs in a large room "NAME A SINGLE THING. I AM RIGHT HERE." In fact no one ever does and nothing exists in my history like that. I have directory Mr Hyde in Aviator Glasses of stalker of me walking around on the hunt for misconduct that does not exist but stage that appearance all the time in public and in institutions. In fact it is a racket that demands payments for what nevver happened as it is also shouted or laughed at "That is money (owed to me)" by those asserting I have done something wrong. If you wish to hear some of the voices who have been in the shouting matches you can not. The are almost all dead, those fakers in a fake allegations racket. I have attempted to get exculpatory facts to those making allegations but they say "they can not interfere with the investigation." COperativeINTELelligencePROgram COINTELPRO is using illegal cover programs COIN making inTELigene Program. Making "Money" by publicly selling me what I am not buying so in turn they can buy from me "money shot" I am not selling.

Much of this depends on impersonated confessions, racketeering allies, and staged role-playe scenarios acted out. July 9, 2017 https://www.kiiitv.com/article/news/local/corpus-christi-firefighters-respond-to-overnight-apartment-fire/503-455311884 and per Ed Donegan an illegal operation was underway and there appeared ashen remains of corpses in the tub. Photos of that are offered in my books. Jen Moore was found dead in 2018 asserting this criminal operation. "G:\My Drive\Public\Data Bank\Big Data\Devieing Appearances Generate Slander\Aviotor Hyde took photo"

Vitriolic Embellishments: The system of Gang Stalk (like most frauds or frame jobs) uses team of fraudsters and creates vitriolic embellishments trying to add negativity into (add it to) the positive and normal life such that once toxicity linked improperly as embellishment to the original activity and person is poisoned by the added in toxicity. That embellishment that expresses a negative about a person at library, park, or elsewhere destroys the life of a targeted person, can result in fights with the stalkers, and fights against the stalked person on the basis of the smear. Poison is an important word. Cases against a person can be poisoned too. Gang Stalkers bullies fabricating abusive and phony crime scene with evidence plants and false-witnesses, tampering with evidence (by planting evidence and victims, taking phony and impersonated statements, refusing exculpating statements, and misrepresenting events is in law enforcement power and they do so including fraud on the courts including using tampered evidence before magistrates, grand juries, court personnel,, etc., The actions are blatantly illegal, obstruction of justice, conspiracy against rights, motivated by the need of political elites with much to hide, and often formed with the cooperation of racketeering influence officials from small towns or institutions that are either duped or wish to be part of ends-justify-the-means fraud. Another term for it might be COINTELPRO that turns a profit for the racketeering influence criminal organizations operating under color-of=law (a police operations) that is blatantly illegal and continues through the assassination of whistle-blowers and break-ins to home or official offices, or larger acts of terror or fraud.

C:\Users\eddonegan\OneDrive\Documents\AlistBooks\Book Internals\GreatTreason\JenMooreHomicideDetails.html:2428: On August 12, 2018 Jen Moore was found dead. Two of her videos had these names. "Good Versus Evil We Must Fight On" and "Conspiracy Theorist Versus Truth Teller." She also posted on GangSTalking and proving their illegal activities that they deny. The police operates these gangs of thugs and can and will "silence" any new information on the Kennedy assassination she was trying to release. After her death and facing the same violent attacks and threats from police I continue to tell the story she and I assert. She was reporting on (whistle-blowing) an impersonation scheme tied to the Donegan family (my family, my mother and me) and an illegal program money laundering protection racket that used an impersonator to confess to fake allegations which funded an illegal slush fund run under color of law. There is a chapter on her death and reports about from OANN News and other sources but a great deal of confusion remains and denials from the FBI (unexpectedly) continue as well.

C:\Users\eddonegan\OneDrive\Documents\AlistBooks\Book Internals\GreatTreason\JenMooreHomicideDetails.html:2478: Jen Moore was whistle-blowing an illegal operation under Color of Law (to appearances it is law enforcement conduct upholding the law) when in fact it was illegal conduct that utilized State resources and those who were influenced to participate in State activities be they individuals or organizations) who used covert racketeering and money laundering whose functions included a mafia presence inter-woven into the puplic fabric who utilized under-cover agents for misconduct often re-inforcing each and and working in tandem to carry out dirty tricks. These CIA, FBI, NSA, Secret Service, and other groups and those acting in concert with them create sham investigations staging an investigory interest in a person when there is no investigatory interest and that target (and perhaps a target of a Grand Jury) for the purpose of both defrauding the target and also perhaps and more likely discrediting the target which is in the interests of the elites who fear that their target has information the elites fear, and that information goes back to Allen Dulles, John Folster Dulles, the McMartin School, Franklin Nebraska, and genetics and eugenics studies and hidden identities of bastard children of elites that have existed for generations in some family lines.

Stalk Mock Frame Blame as a Criminal Syndicate

- **Stalk:** Fraudsters follow me or take up postions near me including the leasing office.

- **Mock:** The team makes a mockery of what I am really doing. Pantomime and mimicry are closely related, both involving the imitation of actions or behaviors. The team acting out slander by pantamime are re-inforced when a mick confesses later to what the staged event depicted. I was able to show the presence of a Mimick of my in "a case of mistaken identity" causimg me to be blamed for events I was not liable for.

- ***Pantomime***: The physical actions of the Pantomine builds something not there.I in its theatrical sense, is a form of performance that relies on non-verbal communication, using body language and facial expressions to tell a story or portray a character. Often the pantamime Pantomime informally panto) is a type of musical comedy stage production designed for family entertainment, generally combining gender-crossing actors and topical humour with a story more or less based on a well-known fairy tale, fable or folk tale.[3][4] Pantomime is a participatory form of theatre developed in England in the 18th century, in which the audience is encouraged and expected to sing along with certain parts of the music and shout out phrases to the performers. The performers often danced around something inanimate but built into an occuring story.

- ***Mimic*** means to imitate or copy the actions, speech, or mannerisms of someone or something,

- **Frame:** The team of fraudsters creaing this storyline wishes to blame me as a person for events it alleges I am invovled in but not involved in.

- **Blame:** By going to court ove these staged events I am blamed in the legal system by a system that is fraud on the courts but succceeds in pay-out damands based on the blame of me.

Organized Stalks are deniable porgrams recruiting assetss (often the homeless, mentally ill, criminals and parolees, those who have been snitches) into police backed polticially motivated criminally conducted vigilantism against Targeted Individuals. I Ed Donegan had warned sone groups in Corpus Christi that the FBI and others have placed Confidential Informants in jeopardy including here in legal jepoardy as involved in criminal conduct and I assert many were killed (these at-risk role-players in the frauds) because they may or did speak out as to the illegal activities compromising the secrecy of the activities that are illegal and include break-ins, homocides of whistle-blowers, etc.,

In my case in the last 10 years a Nueces County District Attorney named Mark Gonzales mocked me as having a child's buttocks fetish. This was staged by role players thus blaming me for photography others were doing of the buttocks of minor-aged females. Mark Gonzales not only blamed me for butucks fetishims he appeased his own by asking adutl models to visit his role players and make a showing of adult buttocks. This was done at 1001 N. Water Street among other locations. THe criminal conspiracy also framed me in the courts with fabricated confessions, confessions not from me but from his role-players using my identity to fabricate confessions. Not only did it passively abuse me with payout demands from my trust fund that insures my conduct they abused my reputation and abused me inter-persoally in buylling conspiracy against my safety.

In a chapter I call for justice for the dead role players who were used in criminal acts and then silenced before or shortly after they had reveeled the criminla activities.

Jessica Aber served in the Eastern Distrcit of Virginia where many of the parties involved in proccessign false claims in the legal system occurred.

Looks like ISIS caught a person the wrong person in the wrong apartment. The fabricated events leading up to the confrontation with the impersonation of Ed Donegan and the confession fabcirated by the pollice and her will be used to sue the trust fund of Ed Donegan with a baseless fabricated claim. During this she will model for the cops in an apartment not mine, conduct an interograion session with someone not me, model inside sherrifs detention and police buildings, all the while say it is me she is tracking not the reality of the police tracking her using my trust fund to pay for her.

Isis is a person I was contacted and would have beem a cultural match for but was told I was under investigation (actually a sham investigation) and recruited into it at the building burned down later and not by me though I documents suspicous activity from the outside before the fire.

> To defeat someone in a competition or a contest: This is the most common usage. It means to win against someone, often in a close or challenging competition.

Blacklisting

Job opportunities will be trashed. Most TIs are unemployed. Many would be in the street if it weren't for parents, siblings, or friends. Those who are employed are usually mobbed.

"Progressive financial impoverishment, [is] brought on by termination of the individual's employment, and compounded by expenses associated with the harassment," wrote McKinney. Most Of the targeted individuals she was able to observe during her early investigations were mobbed out of employment by their coworkers.

There are blacklists and software packages used to check these lists for suspected terrorists and threats to national security. Apparently this is a flourishing business, according to the American Civil Liberties Union (ACLU).

Blacklisting has also been used on Russian dissidents. In his book, The Persecutor, Sergei Kourdakov, a member of the plain-clothed People's Brigade, declared that once a person was targeted they could only get the worst jobs, if they were employed at all. - "The Hidden Evil: The Financial Elite's Covert War Against the Civilian Population" by Mark M. Rich

Use of Blacklisting Slander to stop home office or library work

U.S. Supreme Court >Brown v. Socialist Workers Comm., 459 U.S. 87 (1982)

I have cited this casae https://supreme.justia.com/cases/federal/us/459/87/ that the use of slander to black list me from housing is an example on attacks on free speecn in that when Socialist Workers Party 1974 tried to rent office space, etc., they could not because they were unpopular. Making me a pedophile, etc., makes me unpoplar and conspires against my spending money on rent or use of libraries.

SCTOUS: The District Court found "substantial evidence of both governmental and private hostility toward and harassment of SWP members and supporters." Appellees introduced proof of specific incidents of private and government hostility toward the SWP and its members within the four years preceding the trial. These incidents, many of which occurred in Ohio and neighboring States, included threatening phone calls and hate mail, the burning of SWP literature, the destruction of SWP members' property, police harassment of a party candidate, and the firing of shots at an SWP office. There was also evidence that, in the 12-month period before trial, 22 SWP members, including 4 in Ohio, were fired because of their party membership. Although appellants contend that two of the Ohio firings were not politically motivated, the evidence amply supports the District Court's conclusion that "private hostility and harassment toward SWP members make it difficult for them to maintain employment."

Most of the limited resources of minor parties will typically be needed to pay for the ordinary fixed costs of conducting campaigns, such as filing fees, travel expenses, and the expenses incurred in publishing and distributing campaign literature and maintaining offices. a landlady in San Francisco rejected the application of two SWP members for an apartment because the FBI had visited the landlady and warned her of the dangers of the SWP. In finding No. 127, the FEC accepted the SWP's proposed finding that, in 1974, a landlady in Chicago evicted a SWP member from her apartment. The landlady explained, "they told me all about you," refusing to identify who "they" were.

These two incidents are, of course, remote in time and place, and do not suggest that the party itself has had difficulty in finding office space. Nor do they suggest that the general public is likely to engage in similar activity. Moreover, the FBI's actions against the SWP have long been ended, see Final Report of the Select Committee to Study Governmental Operations with Respect to Intelligence Activities, S.Rep. No. 94-755, Vol. 4, pp. 3-4 (1976), and Congress has since instituted more rigorous oversight of FBI and other intelligence activities, see 50 U.S.C. § 413 (1976 ed., Supp. IV). An inference from these two incidents that disclosure of recipients of expenditures would increase any difficulty the party might have in obtaining office space would be tenuous, and is plainly outweighed by the "substantial public interest in disclosure," Buckley, 424 U.S. at 424 U. S. 72.

It was the elites dating back to Robber Barron days and WW I European history and powers that created the plots and family lines we live under

Police have used the slander of a sham investigation and character assasination to do so. Though seeming to protect the BDSM scene it has done predatorial violence to many of its best and most moral members. As Mark Rich observers these high power officials can and do sitll use illegal methodologies to control the nation and eliminate whistle-blower threats to the history of the Kennedy assasination. This abuse of power creates red-herrings. Hunts for child abusers go underway, for terrorists, etc., but the people really protected are people like the British and US Aristocray who feel their methods are superiour to those of a republic, and speech and personality defects in the Windsor family must be kept secret to preserve the reputation of British nobility.

"The Hidden Evil: The Financial Elite's Covert War Against the Civilian Population" by Mark M. Rich

Introduction to the Financial Elite

Before covering the specific groups which are likely responsible for creating theHidden Evil, it's necessary to explain that the United States and other NATOcountries are not run by their respective leaders. The power structure does notoperate in the manner taught in public schools.

The evidence I'll be presenting suggests that these nations are run by anelite cabal of wealthy individuals who prefer to operate from behind the scenes.This group has been called the Establishment, Secret Brotherhood, Alliance, Invisible Government, Shadow Government, New World Order, Illuminati, Military-industrial Complex, etc.

In an article entitled, Elite Clique Holds Power in the US, which appeared inthe Indianapolis News in December Of 1961, Edith Kermit Roosevelt wrote: "Theword 'Establishment' is a general term for the power elite in international finance,business, the professions and government, largely from the northeast, who wieldmost of the power regardless of who is in the White House. Most people areunaware Of the existence Of this legitimate mafia."Most people can sense that something is wrong, but can't quite put their finger on what it is. Despite changes in administration, the world continues to fall apart.

The reason, insists Professor Antony C. Sutton in his book, Wall Street andthe Rise of Hitler, is that our elected offcials are not really making the decisions. Instead, they're made by a clandestine group of wealthy elite, whose objectives differ from a majority of the population.

On March 2 6, 1922, the Mayor of New York City, John F. Hylan said: "The realmenace of our republic is the Invisible Government which, like a giant octopus,sprawls its slimly length over our city, state and nation. At the head is a small group of banking houses generally referred to as 'international bankers.' This little coterie of powerful international bankers virtually run our government for theirown selfish ends."

Congressman Lawrence P. McDonald wrote in November of 1975: "Many ofthem use their vast wealth, and the influence such riches give them, to achieveeven more power. Power of a magnitude never dreamed of by the tyrants anddespots of earlier ages."

Author James Perloff describes the typical path of one of these individuals,in his book, The Shadows of Power. They start off in prestigious private schools,then move on to Columbia, Yale, Princeton, or Harvard, where they join fraternities. After that, they proceed to a prominent law firm or bank on Wall Street.

Those who are politically inclined work at establishment think tanks suchas the RAND Corporation, Council on Foreign Relations (CFR), and Brookings Institution, or join the boards of one of the great tax-exempt foundations. After that, they may ascend into a lofty position in the federal government.

Communication

There is communication between the surveillanche faction, citizen informantsquads, and local businesses in the area. Obviously the managers of stores arecontacted by a representative of this program, possibly by cell phone, pager, orwalk-in, and told to prepare for the arrival of the TI. A picture or video of thetargeted person may be shown to the participating staff.

The targeted individual may also be identified as he or she walks into thestore. The IMs in East Germany communicated using non-verbal cues, so thisis also a possibility. When the TI arrives, those who have been co-opted follow through with crowding and noise attacks.

They also work in unison with plain-clothed citizens to harass the targetedcustomer. Advanced electronic methods of communication, which are not commercially available, may be used by the coordinating faction to direct thesecitizens.

Friends & Family

Friends and family of targeted people are used to harass them. Identical tactics were used during Cointelpro. According to the book, War at Home byattorney Brian Glick, FBI records reveal frequent maneuvers to generate tension(harassment) on targeted people by recruiting their religious leaders, children,parents, landlords, and others into investigations. - "The Hidden Evil: The Financial Elite's Covert War Against the Civilian Population" by Mark M. Rich.

DoppleAptWithNumberMissingHHAHAHFnearPlantedKeyswrongEndOfComplex.jpg JustBecauseOfARumor2.png" show that a person 1) Near a school 2) With peeping aperture created 3) With identifying apartment information missing such as building number AND apartment number that a scheme conflating the events with that apartment with my apartment and those people with me blamed and framed me since it was the mock-up apartment where the staged events and calls for remediation occured and were not linked to me except fraudulenty.

The exact image DoppleAptWithNumberMissingHHAHAHFnearPlantedKeyswrongEndOfComplex.jpg sometines appears in my books named as CasesOf_MistakenIdentitiesReDamage.jpg and this goes to the point a play-actor is incurring guilt in my name and makgin demands on my trust based on fraud and NOT real events. The operation creates the appearances of my involvement but are onlyi appearances to the courts and others.

I have asserted arson was used to dstroy evidence of the fraud in this building and it seems likely that the ashes in the bath tub form the shape of deceased bodies consumed in the fire.

- **IF** Mark Gonzales was fabricating cases against Ed Donegan by using thugs living far above their means in Neighbored Watch Protection Racket ...
- **IF** " Mark Gonzales got caught doing so and burned down an apartment complex with his thugs killing the fraudsters
- **IF**: The person Mark Gonzales was passing the fake claims to was Jessica Aber
- **IF**: Jessica Aber passed the allegations to ARC of NOVA for pay-outs
- **Then:**: These parties might have much to cover-up.
- **Then:** My book wrting and life might be sabotaged.
- **Then**: They might have been recruited by high ranking officials for a Gladio racketeering Domestic Terror Cell that is more far reaching than just some local yocal reason to slander Ed Donegan also for cover-up and "silencing" reasons

My books series show clear evidence Nark Gonzales of the 361CarsForSale democgraphic refereed to was depecited in Federal Court artist depictions of having watched a dopple of me caught in an interogration scene confession, the high-end models used to catch and treat Gullible loser disguised as Ed Donegan who is allehed to harm the prison inmate, skid row, and immigrant population of Nueces County who in fact as "neigbborood watch" assaulted Ed Donegan as a pedophile. My books show this is a techniqque of corrupt officials building Grand Jury cases in Federal Courts that fall short of real trials if they are settled. My pictures of real time events show ARC of NOVA was a participant of this. Deeper into the data archives I have and others have is that religious interest and law enforcement interests had a prurient obsession wiht all of this faking

illegality hoping to gain an excuse to becoe investigators with a cause. That this conspireacy resultd in 11 deaths related to fabrication of claims by a conspiracy is shown in my books.

Jen Moore began her public reporting on this Arlington County fraud publicly in 2015 but had older data than that and died reporting the program in 2018."*Action non datur non damnificato*" is An action (like seizing of assets of a person) is not given to one who is not injured. The requirement that in most private legal actions, the person bringing the action must have been damaged in some way. Jen Moore and I Ed Donegan assert a long con under color of law is shaking down my trust fund even for geneti bio-rights on false claims I am injuring others. This long con is illegal as is the motives for "deep state" harassment of me with falsified allegations slandering and defrauding me. Accusing me of "victimizing children with my eyes" asserts those around me are being injured but the incidents are staged KOMOPROMAT not real. Why falsedy point the finger at me in the federal system? To defame me and even make a demand for compensation that has not real basis in fact. It is the Pillory of me with false allegations, bullying rotten fruit tossed as abuse not truth.

In 2009, Jessica Aber entered public service as assistant United States attorney in the United States Attorney's Office for the Eastern District of Virginia. From 2015 to 2016, she served on a detail assignment as Counsel to the Assistant Attorney General for the Criminal Division of the United States Department of Justice. From 2016 until 2021, Aber was the Deputy Chief of the Criminal Division for the office.

U.S. Attorney for the Eastern District of Virginia

In March 2021, Senators Tim Kaine and Mark Warner recommended Aber and one other candidate to the White House. On August 10, 2021, President Joe Biden nominated Aber to be the United States attorney for the Eastern District of Virginia. On September 30, 2021, her nomination was reported out of committee by voice vote. On October 5, 2021, her nomination was confirmed in the United States Senate by voice vote. She received her commission on October 7, 2021, and was sworn in on October 12, 2021, by Chief Judge Mark Steven Davis and Judge M. Hannah L auck. Aber resigned effective January 20, 2025.

SelectQuote Admits to San Francisco Police Connection

SelectQuote and the San Francisco Police conspired together to hurt my daughter:

1. I hear **threats regarding Abby at SelectQuote** (who imply they have a lot of pull with police).
2. Police destroy evidence which would help me.
3. Police manufacture evidence to discredit me.
4. Abby is essentially kidnapped (no disrespect intended towards the foster mom).

There was a lot more than a month's worth of trouble. For now I'm just giving a high level view of the worst of it. Here, I detail the possibility of police involvement in a break-in to my apartment a month later.
It is worth noting that I am limited in my ability to get comments from those involved at SelectQuote. I have spoken to **three different private investigators** in an attempt to get one to interview **Michelle Tan**. One stated that he did cases like this, but not this particular one.

SelectQuote has let slip that they can get privileged information about witnesses from the police. This looks like an improper relationship, especially given the

Veronica Hoffman, Bobby Courtney, "Jimmy" and others died in this time frame who were fabricating facts for bogus allegations and Britanny Murphy and Ted Gunderson died in this time frame. I deal with those connected deaths elsewhere.

I have a story to tell and it is part of the history of the Presidency and high ranking officials possibly (according to some estimages) numbering in the thousands tied to Senior Executive Services and other inner-government workings that they the Deep State would like to block and block by a slander campaign against me using faked events in real places or similar places but by a mimick of me.

The file DunhamSpottsPhoneEEdDoneganPromotingNegativeLegend.jpg is about how police were using dopples, apartment break-ins, sock puppets online, slander and rumor campaigns to destry his life and my own and much of what Tom Dunham and I found we found independently of each other and we communicated almost never at all about it having lost contact long ago. When Tom Dunham did contact me I thought he might be wrong and rebuffed him. Over time I found he was correct.

Where a confession is taken from an impersonate of me operating out of a similar apartment that has Tree House peeping apertures a fire breaks out

These match the elaborate hoaxes Tom Dunhan was experiencing. He was Doplpled and I was. These dopples were abusive charicatures and intentionally conflated with us in their actions.

Like with Tom Dunham in San Francisco impersonators of him and me existed and people were speaking for us and to us that were were implicated at these rendevous yet we were not. Not only were these not my apartment they were even my building. I was in the next building south. When the fire started I passed the butane cans I had for Tiki Torches to the firefighters at ground level should the fire spread to my building. Keys Hanging From My Window

SelectQuote Review looks back to the police response to some break-ins, in light of recent information.

From SelectQuote to my Neighborhood - SelectQuote Review

Note that someone identifying himslef as Tom Dunham is around makes a statement to Tom Dunham implicating Tom Dunham in the fake set of keys likely for a young call girl. At BAL statements are made to and around me trying to implicate me yet I am trying to document all this and report it. Tom Dunham and I are being framed by the police. Note also possible land-lord involvement.

The fake keys drop outside Anonymous Unit 2 of Casa Linda in a blue paint paint can in a building far away from mine but a person says to me are the keys ready for me as if I had anything to do with it, I did not..

MacFakeKeyDrop.jpg is something strewn about to be seen by all. A key drop was placed near a hole in the fence near a high school. A police Neighborhood Watch watched an apartment not mine but was similar to mine in other ways. The dissimilarity was that this mock-up apartment was an inferior minded childish man peeping at teens via damaged blinds or curtains. Hoping to create confusion this peeper had removed the apartment number from the outside wall. I assert in a fire in this building hid a murder victim in the bathtub with multiple types of evidence to that affect some I preserved some i did not.

Tactics Part II written by Mark Rich

Sabotage, Vandalism, & Staged Events

Targets may regularly experience acts of vandalism. Electronic equipment may fail or act strangely. People have reported this happening with electrical systems in their cars, brand new appliances, TVs, radios, PCs, and other electronic devices. Ongoing computer problems which do not follow any logical pattern may also occur. They include hardware and software issues that span from the file to the internet level.

Many times this vandalism is just below what you'd report to the police. For instance, a small but noticeable portion of your wall has been chipped off, and a crack has appeared in one of your windows. This may be restricted to minor vandalism, just to let you know that you're under surveillance. However large-scale property damage is also done to homes and vehicles. Some people have reported that their pets die suddenly of a mysterious illness. Vandalism and pets being tortured may also be in retaliation for you taking action to expose them.

"Automobiles are one of the biggest targets," said Moret. People have reported that tires are slashed, oil is drained, windows are smashed, electronic components are tampered with, and breaks and clutches are sabotaged.

The Gullible a retarded person needing retardation services is chased to an ampartment not mine and he is not me but confronted as a pedophile he pays up, avoids arrest that way and is provided adult sex workers.

-"G:\My Drive\Public\MacResp;onse\THe 3 Witnesses\3Witnesses.html"

How Slander Campaigns that are run by the police and other agencies work

Situations that may have no negative implications as to a person or even redeeming implications may also have bad optics or farbicated optics.

Unless you understand the situation (why an off-duty thoracic surgeon was leaning over the body of the deceased holding a smoking gun in his hand) or that evidence was planted by police to implicated a person in a matter the person is not invovled in. (Sometimes the glove really DOESN"T fit and you must aquit and avoid a rush-to-judgement.)

In other cases a record in a person's history (like my own) my be correct but still unfair. A person may be reported to a credit agency for an outstanding debt by that may be contested and won. In my cases and other cases our accusations of government misconduct has resulted in fights and psychiatric commitments devestang our lives at the time and also our reputation. In may cases we may be provoked into fights we will look morally and legally wrong in.

Once exposed to the slander behind the scenes groups of people like co-workers become lynch-mobs full of dripping arrogance regarding themselves and vigilantist hostility towards the slandered person.

There was no investigatory interests in Tom Dunham or Veronica Hoffman other than they (like me) knew too much.

The investigatory interest in me is minor and by any equal protection examination selective or abusive attention on me yet the political value of sabotaging me is a major interest to a covert history of crime and the presidency MK-Ultra.

When I was fired from Wells Fargo I had porn on my computer because when on drugs (I was then) I did not like to go out to the clubs. Whatever recovered this is what existed across my home and work computers: Adult BDSM porn and fashion from Other World Kingdom, Torture Garden corsets, and more. Bikini Bull bikini contests. Some Teens as the beach along with other similar bikini alt groups. Some occasiaon images retained other than late teens for reasons unrelated to sexuality. "Why is this picture here, what does it mean to someone with this imagery?" etc., Only late teens if teens at all would be viewable by me without a sense of revulsion. This latter matter of late teens is the chosen view of my by Stalkers. The evidence collected on this is a rediculous investigatory interest. THe plants of tots and other minors around me is a ludicrous police abuse act. It is a slander campaign for political and criminal motives.

This was the basis of impersonation of me using the trust fund for lessons in sophistication and culture and seuxality that could then be applied to life outside of Nueces County (such as Austin-Travis County metropolitan area) or worldwide in fashion business, entertainment and screen-writing, etc.,

It was a opportunistic abuse of me a political opponent of the progressive organizations my brother and Mark Weirness belonged to but an even greater goal was that the abuse of me was blacklisting me and creating fights and arrests over the slander distracting my work on my family's OSS CIA Vatican history my brotehr was still covering up before his death.

Jessica Aber may well have been tied to the illegal operations in County Services that set up a fraud scheme with ties to the CIA history and may have committed suicide or been murdered over it. Much of the illegal operations occured whn she was active in Arlington area and possible ties to the Walnut Creek California history of Jim Donegan and Ed Donegan Walnut Creek history too.

As to what happened to Jessica Aber I do not know but I am suspicious. Some things I do know and will offer that.

Narco-Premised-Groups

In my book The Great Treason I assesrt 1) "A High Power High Priority Need of Espionage Officers" that are either elected or appointed hold-overs of ties into MK-Ultra. 2) Espionage Agency Self Interest that manipulate the courts and 3) Private Citizen. Because tools of law enforcement can be used in fame-job those corrupt elements can dupe or enlist the courts and others into corruption bringing injustice to those who espionage officials may fear - Whistle-blowers.

As for break-ins and other actions protecting a cover-up with the right assets helping out "*You can fool some of the people all of the time and all of the people some of the time*." Still even with the best cover-up efforts "*You can not fool all of the people all of the time.*"

GangStalks often engagge in illegal actions and sometimes with high level support inside official channels. The role-players who engage in frequently illegal actions may be first responders, respected organizations asked to participate, or those whose societal standing is in some way encumbered such as convicted felons, the disabled, illegal immigrants, the mentall ill including those in social services. Mark Gonzales the District Attorey was from an "outlaw" biker gang and hate groups like Islreal Unied in Christ/Black Hebrew Islrealites wwere active in the area and needed a lift from the cirumstances they were living in. A fraud campaign targeting me and investigating made me their mark for illegal police actions.

Conrad Dunn. Conrad Dunn (Born March 9, 1950) is an American actor. He began his screen career with the role of *Francis "Psycho" Soyer* in *Stripes* (1981).

Ted Gunderson asserted William Colby was shot in the head. Gunderson spoke of glass knives used by the CIA and other techniques and DeCamp quoted Colby as saying (and I paraphrase here) If you do the hit right they will never know it was the CIA, and 2) If you are a risk to something that the CIA thinks can not be disclosed and you are about to disclose or reveal the program doing so will endanger your life.

Ted Gunderson and General Sosbee and Ed Donegan and others have asserted Hispanic biker gangs, Satanic groups, drug dealers, and others work in close conjunction with the CIA and assassinated Sonny Bono and many others. At times Gunderson complained of "surveillances" used on him as others have of local thugs from various pools of them that might be drawn from. These thugs have clear support from the police and the police give them instructions while deny being linked to them.

As for Narco-Premised-Groups I assert Four Hats styled infiltration teams into drug dealing, adult entertainment, and other lifestyles can be prurient pursuits on the flimsiest excuses of self-serving name-calling and slander campaigns. But it goes other ways to. Deeply religious groups may wish outreach or corporations of true salvation types like the Bush family (not child prostitution users at all) may seek Department of Defense in-bed status with the US DOD, FBI, and others getting US corporations into lands the USA wishes to influence. While corporate NPGs may be more button down and investigated in a more white-collar infiltration, a self gain motive in the financial sector is a factor just as self-gain is with the Narco sector.

"If a man with Money meets a man with Experience the Man with the Money will be left with the Experience and the man with the Experience will be left with the Money"

That was a joke from the New York area street people told by a freind of mine long ago in California AA. The lack of college education was among the problems many had in the City of COrpus Christi, Nueces County. While under arrest on vagrancy charge I suggested to a cops son who was in custody use custody time to study law and civil liberties and other interests.

My backgrounds was in some ways Home Eduction with a learned and well traveled father in cold war and eurpean history including philsophy, art, and engineering. I was well traveled myself and well read for my entire life. Others hope they could draw upon my acceptance by others even though I had no university degree hoping they would be too. This made me a high-vaule target to climbers.

High Level Officials Can Both Organize and Suppress Organized Crime

I accused the NWO forces as using extortion, murder, money laundering and other clearliy illegal crimes. That they are done under color of law may facilitate acceptance of the FBI programs but it can not nor can anything justify the program and its massive illegality protecting earlier massive illegality. This goes back to Bush an the CIA, Obama and the CIA, political cointelpro harassment under color law fabricating evidence and cases as destruction of the Truthers about JFK. I go back to I face the same threats Veronica Hoffman, Jen Moore, Ted Gunderson, Gerel Sosbee, Tom Dunham, and others have faced for the same reason they faced these dirty-tricks threats.

Many witnesses and even one-time participants in illegal government operations have been found dead some after receiving death threats. Jen Moore was one such whistle-blower who asserted that because today's high ranking elites have criminal ties into the JFK assassination and cold-war history of MK-Ultra in McMartin Preschhool and Framklin Nebraska and she was a former police officer from they city of Tracy, California. She (like I) carry no fire arms. We have have depended on the law however slowly the facts may come out and however slowly the legal system may operate. Ultimately our weapon (as it should be) is the brazen greed and open admissions from thugs and other recruits into the illegal operation that they have an illegal operation under way and that government officials do back the operation using family members as role-players, etc., The programs under "Color of Law" are illegal and in use by US Government officials though are denied. Taking the case to the press who deny "conspiracy theories" is the main strategy to weaponize the guilt of the racketeering and money-laundering criminals.

Transnational Organized Crime https://www.fbi.gov/investigate/transnational-organized-crime

The FBI is dedicated to eliminating transnational organized crime groups that threaten the national and economic security of the United States. Using the criminal and civil provisions of the Racketeer Influenced and Corrupt Organizations Act (RICO), the FBI works with agencies in the U.S. and worldwide to target the organizations responsible for a variety of crimes.

How TOC Groups Operate

Transnational organized crime (TOC) groups are associations of individuals who operate, wholly or in part, by illegal means. There is no single structure under which TOC groups function-they vary from hierarchies to clans, networks, and cells, and may evolve into other structures.

These groups are typically insular and protect their activities through corruption, violence, international commerce, complex communication mechanisms, and an organizational structure that spans national boundaries.

With few exceptions, TOC groups are looking to make money. TOC groups often commit crimes such as:

| drug trafficking | | migrant smuggling | | human trafficking | | money laundering | | firearms trafficking | | illegal gambling |

| extortion | | creating and selling counterfeit goods | | wildlife and cultural property smuggling | | cyber crime |

The vast sums of money involved can compromise legitimate economies and have a direct impact on governments through the corruption of public officials.

Today, TOC groups are more commonly incorporating cyber techniques into their illicit activities, either committing cyber crimes themselves or using cyber tools to facilitate other crimes. Technology also enables TOC groups to engage in traditional criminal activity, such as illegal gambling, but with a greater reach.

TOC poses a significant and growing threat to national and international security with dire implications for public safety, public health, democratic institutions, and economic stability across the globe. It jeopardizes our border security, endangers our health through human trafficking and counterfeit pharmaceuticals, and seeks to corrupt officials domestically and abroad.

Countering Transnational Organized Crime To combat the ongoing threat posed by these groups, the FBI has a long-established-yet constantly evolving-transnational organized crime program dedicated to eliminating the criminal enterprises that pose the greatest threat to America.

Due to the transnational nature of these criminal enterprises, the FBI leverages relationships domestically and abroad to combat the influence and reach of these organized crime groups. The Bureau deploys subject matter experts to international locations to develop strategies to address TOC matters impacting the region, as well as to identify targets of mutual interest.

The FBI also participates in selecting TOC groups to appear on the Department of Justice's (DOJ) Top International Criminal Organizations Target List and contributes to the Treasury Department's Office of Foreign Asset Control efforts to pursue criminal enterprises. Further, to pool resources and leverage technical and investigative expertise, the Bureau participates in many organized crime task forces with our state and local law enforcement partners.

Asset Forfeiture

Asset forfeiture is a powerful tool used by law enforcement agencies, including the FBI, against criminals and criminal organizations to deprive them of their property used illegally and their ill-gotten gains through seizure of these assets. It is also used to compensate victims of crime. Learn more about the FBI's asset forfeiture program and to see forfeiture in action. -https://www.fbi.gov/investigate/transnational-organized-crime

Faking a Case rather than Making a Case to ruin a person

Asset forfeiture is a powerful tool used by law enforcement agencies if they wish to ruin a person's live or defraud a person with fabricated evidence, evidence plants, role-players staging frauds, etc., in Criminal Syndicate operated by select government agencies and personnel.

In my case Edward Paul Donegan I assert corrupt actors are paying themselves to slander my by asking for a payoff to mitigate the slanderous allegation against me. They want a "make it go away" payment to settle a phony law suit. I will not agree to it but the use of identity theft and other crimes make the payments possible through a trust fund that is cooperation with the Criminal Syndicate. This is Jen Moore's allegation too.

As I Edward Paul Donegan was diagramming and asserting money-laundering (making payouts for fake victims seem like they were realy due to victims) so was Jen Moore who was also aware of this. Here videos are here.

DeathOfPizzaGateWhistleBlowerJenMoore.png is the story of Jen Moore found dead Auguat 12, 2018. This was a few days after I furnished evidence quite widely a fraud was blaming me for what I have nothint do with in a racketeering money laundering scheme using genome as improperly acquired contraband in a crimial conspiray. Also called "Sperm Bank Fraud" or "Biopunk Markets" "Red Markets" or "Organ Trafficking." She became a risk to fraudsters when she like 8 people found dead before her also had evidence of fraudsters operating and operation illegally under COlor of Law.

Excerpted letter copied here editorially modified in part for several reasons.. Pictures 1 -18 are included in the originla document as are some diagrams and in addiction videos of the fraud are offered conting voice recordings and other evidence to frauds. A pernicious Blackmail/Extortion ring has formed. The complexifying elements are that

- Emezzelers have captured funds into bank accounts tied to them but falsy claimed are actually mine use Identity Theft and other Fraud tactics to hold, and money launder the funds due me but held by others. I have no verbal, financial, or any another account of the financial accounts but others use identity theft to create the cover story I am aware of the money and I am spending out of it. Chris Lloyd of Orinda California appears central to this illegal scheme.
- Identity Thieves are using impersonations of me to engage in despicable and politically defaming conduct. PICTURED A bike other than my bike, but of similar description, in an otherwise empty parking lot, is spying on women of the gym. Golds Gym Corpus Christi. Rarely

and non-exploitatively I do use a forward facing dash camera to tape scenic motorcycle rides on MY motorcycle, not the one pictured below.

- The impersonators themselves are both engaging in the despicable conduct and agreeing to be blackmailed socially by dominatrices who will "punish them" by making them give money or other assets to blacks. "Domination is not prostitution." The embezzled money is turned over to "above board" dominatrices such as Kora Kaine, Anastasia, Veronica Hoffman, and adult toy suppliers in a money laundering operation to semi legitimate businesses or donations. [added 2/15/2022 or seem like legitimate assets seizures of Ed Donegan's trust fund based on the acts of the person who stole the identity of Ed Donegan and used that identity in St Louis or elsewhere.}]

- Public spectacle staged photos (along with phone hacking) create the appearance I am aware of the embezzled misused funds. For instance I have only a motorcycle. If I consider buying a car an look for one or request one from my trust fund, vehicles I am considering will be driven near me, pause, then drive away as though I am examining them. I conjunction with this unrelated spam phone calls will reach my phone making it seem I am being asked to authorize and am involved in some vehicle purchase which I am not. Without out accounting to me embezzlers will buy the vehicle as though authorized by me, keep it for themselves, and conceal it from me. (Corpus Christi Toyota 4Runner or Chris Lloyd Porsche, or real estate such as in Missouri, Moraga California, or Corpus Christi.

- At Points of Sale cashiers intone some "good times" are being bought in addition to groceries from some planted female. I suspect a second transaction (not the legitimate one I make) is later made by an impersonator of me which will access the embezzled account rather than my account. The impersonator will then leave the store or gym with the planted female for the "good time" although the innuendo was said towards me at the point of sale.

- There is law enforcement or Secret Service, DOD, or other internal law enforcement support based on what I have been told by at least 9 people. In ErosX (My identity is crossed out with someone elses) black sex offenders, black foreign nationals, and junkie white trash or other tatooed prison felons have been setup to receive stolen or embezzled property, telling me they were hired by the DOD to do so and in fact they have used names like "Harvey Dent" and "Casper." I do believe this is slush fund related corruption and in international RICO scheme.

ONE EXAMPLE WILLIAM RUZ

A Motorcycle jacket [aka Ruiz "Rocket" Johny Rocket the Trust Fund paid for was stolen and a chair I sat in moved, both to a location I was not at so an impersonator could use those items to establish an identity of me and shower peep.

Verbal narrative but vaugely so was added by William Ruiz that while in my motorchycle jacket I was using remote moinotor equipment to watch women shower.

[Safety gloves were also pilfered and thieves encourage to pilfer from me are encouraged to do so in ways that harm my progress towards important goals or safety, the FBI scheme of disrupting a person's life)

HOW PARTS OF THIS HAVE UNFOLDED (I was in a Home Depot looking for piece of wood for a cat play piece of furniture and walked out the Corpus Christi Home Depot without a purchase. That weekend an identity thief with email, age, birthday near me, but unrelated to me, bought property for a rental property I have nothing to do with or accounting of, but is owned by and Identity Thief of me.

The picture of me not buying anything in Corpus Christi is fused with something at a different GPS, a purchase by an identity thief, for a fake record that I did buy something when in fact an identity theft bought something from funds and an account not disclosed to me.

I was in Corpus Christ, was visible in Corpus Christi Texas Home Depot, and nowhere near Missouri Home Depot.

Photos of where Dopples of me operate, Arsons to those areas afterwards in sevarl cases, and the misspellingg domain confusion or brand confustion tricks to hijack my identity and move to elsehwere with it where other events not tied to me in reality will unfold.

I believe I am and since 2003 have been studied as a "White supremacist terrorist" as has been my music scene Goth/ Fetish/ Industrial and my picture of my at a goth fetish club (2003 Spank, San Francisco) was not a normal "Klu Klux Klan" photo in any way. U.S. and other intelligence agencies are at war with this "too white" scene because some of its music references are about the fall of Western Civilization or "politically incorrect themes." [VNV Nation, Ramstein, though these groups acutally favor individuality when the speak at all about social justice.

Tom Dunham, myself, and Veronica Hoffman were all in that scene and attending events together.

Pictures of Doppples of me peeping with similar affects (similar motorcylve, similar clothes or clothes stolen or hijcked from me) who will later confess as me to peeping though behind my back to an asset manager of mine

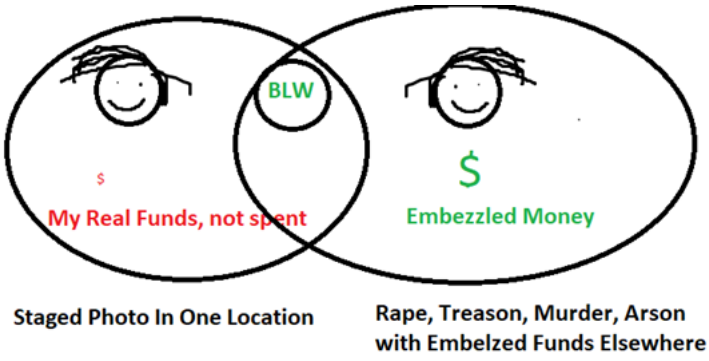
Picture 4 is the only image I include here and I do not remember what BLW was an abbreviation for but in Star Trek lore a person with hair combed the other way an mirror of me is a mockup of me harming children and confession to oine side and to the other side of me children pretend to be harmed targeting money that is mine to be defrauded on baseless allegations. So three of us are saying the same thing each with our own collected evidence at the various places each of were at. I have for more data from myself and them but this is representative.

RepoGeneticOperaOfficialPoster.jpg Kiva.jpg The 2007 Hollywood movie Repo A Genetic Operat is about blackmailing for genetics and in 2007 Veronica Hoffman was asked to blackmail an impersonator of me and blacklist me in the BDSM scene. She was acting on slander and would likely



have found that out fairly quickly. She was found dead two years later making allegations the crank calling her, stlaking her, and other activities designed to be disturbing to here.

By the year 2056, an epidemic of organ failures has devastated the planet and wiped out 99% of the human population. The megacorporation, GeneCo provides organ transplants on a payment plan. Clients who miss payments are hunted down by Repo Men, skilled assassins who "repossess" the organs ("Genetic Repo Man").

2015TomDunhamTweets.jpg AdditionalDataFigure1.jpg are some data from Tom Dunham that like Jen Moore and me had that an impersonator of me often a foreign national at a location I am not at is on November 18 or similar being blackmailed by an FBI operation. The entire matter is a fraud. A fraud of slander about me and a fabricated confession coming from an impersonator of me. Bobby, Jimmy, Veronica, Jen Moore, all knew this was a fraud. All are dead except me. As Jen Moore stated in 2018 four days before her death the gathering evidence this is all a fraud had gone on for years and those who were killed were connected to me and part of that fraud. "Mad Scientist" was also found dead and Sarah Tonin neary killed in a car accident. These events are linked to my life and fraudsters targeting me for fraud as admitted by those people before they were found dead.

Tom Dunham: "The writer impersonating Ed Donegan (not the real author Ed Donegan) appears to have done so to discourage protecting kids. Tom Dunham More impersonations! Someone impersonating a sharp guy I once knew (Ed Donegan) writes incoherently about events that did not occur." The identity of this caricature of me is conflated with me as slander of me and used to defraud my trust fund using the actions of the impersonator as a cause of action against my trust fund.

This is what was said about a prosecutor in Little Rock Arkansas.

> **By Mara Leveritt 1997 Arkansas Times**
>
> You [Dan Harmon] can even turn the prosecutor's office itself into a profit center. That power to bring people before the law is a persuasive one. "*Look, hon," you could say to a defendant, "our little ol' drug task force has found out that you're up to your neck in illegal activities.*" (You could say this, whether or not it was true. In this arena, niceties like the truth don't much matter.) So you say, "Now, if we take you to court, considering that I hardly ever lose a case, you're going to spend about the next 150 years in prison. Or we could negotiate." Some people will find ways of coming up with a lot of cash to avoid 150 - years - or even five minutes - in the Arkansas Department of Correction.
>
> Now, say you've been at this for several years, wearing-your white hat as prosecutor while lining your pockets with black market cash. You know where the bodies are buried. You know who has paid how much for what. *You've entered extortion heaven*.

In my books the Greaet Treason and others I assert a felony cartel. One chapter of the Great Treason is "Golds and Omni TRT" and another is "Bully Media Cartel Bandwidth stops theories of the CIA Cartel." The media has not reported on a criminal operation under color of law underway. How the cartel operates I showed at Gold's Gym and the Omni Hotel in Corpus Christi was this.

Stages of the Long Con: 1) An appearance on my normal life I am exploiting children is imposed on me by role-play actors. Bobby, Jimmy, and others. Those two are deceased. That is Extortion adding something liable for what is not liable my normal life. Extortion is (like other terrorist threats) likey a violent crime in that a harm is threatened unless a behvior is undertaken. In my case extortion demands are made to me verbally or non-verbally. 2) Identity Theft and Money Laundering when an impersonator of me does confess as me to wrong doing and agree to pay-out to the prosecutor's demands. 3) Homicide when whistle-blowers are "silenced." 4) Conspiracy against reproductive rights since they demand reproductive rights. 5) Conspiracy against other rights as lynch mobs harrass or block parts of my life.

It is a system that imposes damning allegations against me that a racketeering trust fund (rather than me) does agree to pay out based on fabricated evidence the prosecutor generated. When Jen Moore had the evidence I showed that the situations were being faked and not real she was killed. The evidence included my videos and audio tapes of evidence clearly being fabricated rather than real. My book Pillory is that this is rotten cabbage shutting down my life and housing and a toxic pill added into anything I do and it is because of my cold war family history is threat to the Deep State.

Often those who have a desperate and otherwise unreachable need of looking good will use a strategy of claiming to be a hero when they accuse some of being in the wrong that they now have caught.

Yes, whether a person has been caught in a crime OR was framed for a crime can be made into a demand for a pay-out from the purported criminal. And yes, this demand can be based on true or untrue allegations. The law is a little different though. If the allegation is true then the demand is *Blackmail*, offering to make a true allegation go away for a price. If the allegation is untrue it is *Extortion*. Demanding a payment not due. Actually Blackmail is a crime but restitution is NOT if it is managed as that.

In my case Edward Paul Donegan a criminal syndicate is using Extortion and a variety of other crimes to succeed in profit-centered power source of encouragement to false allegations. Using Identity Theft (for a variety of reason accepted by those involved) to fabric confessions of me is part of the racketeering scheme.

To repeat a liable situation is by appearance imposed on me and confession to liablity is drawn from an impostor of me.

Some believe perhaps even all believe I like early teen appearances, the vulnerable such is immigrant children or retarded victims, etc., that I like very narrow hips of a pre-teen or even a tot. Yet that is not true even if people believe that. It is also true even if I did like that then forcing me into a staged event of an underage female acting out being my victim is not my criminal intent. I did not want the exposure to that imagery that is forced upon me and I have no liability for it. I was entrapped by it being forced as an image upon me.

Jessica Aber worked in an area the ARC of Northern Virginia is a supposedly only monetary trust fund of about the amount of trust fund assets Judge Roll was allegedly killed over (if you believe some Russian intelligence sources that the Obama admin had Judge Roll killed over that.) I have asserted my brother Tom Donegan and Mark Weirness joined a desperate conspiracy to miss-label my politics and sexual orientation at the time of my mother's death. He was curious about what he learned about me at the time of my mothers death. He had not seen much Goth, Ambient, or other music I listen to. Faking an investigatory basis to examine this at times political messaging (I assert older goths had less interest in all the sociology of today and decried the slander of today's Germans) is something Jessica Aber may have been involved in and the Criminal Syndicate had political origins hight up in the Whitehouse and whitehouse level support.

I also believe the churned-out allegations are used to fuel Conspiracy Against Rights as well.

According to this SVR report, **Federal Judge John McCarthy Roll was the Chief Judge for the United States District Court for the District of Arizona** who this past Friday issued what is called a “preliminary ruling” in a case titled **“United States of America v. $333,520.00 in United States Currency et al”** [Case Number: 4:2010cv00703 Filed: NOVEMBER 30, 2010] wherein he stated he was preparing to rule against Obama’s power to seize American citizens money without clear and convincing evidence of a crime being committed. The house in Moraga was worth that at sale when she moved to Arlington, Virginia. Experiencing congestive heart failure in the Eastern District of Virginia she had Elder Law Partners prepare her will and trust fund there and it was drawn from there at Arc of Northern Virginia.

The house my family lived at divorce time sold for about 320K that my mother turned into her life savings to be used at her death 2011 death into a trust fund for me (half of it) and inheritance for Tom.

As my books report a corrupt allegiance likely existed in interstate fraud framing me in Texas (Mark Gonzales) and using that data for settlements in Eastern Virginia. Jessica Aber would be on the side paying out the claims and Gonzales faking the claims, Gonzales the last person standing and I get death threats as I write about this.

This is what Jim Volcelcka and I argued about him posing the question "Why would we shake down your trust fund of only about 160K dollars? What could we want out of that amount?" It was the answer to this question at the same time 2018 Jen Moore had the answer to, trafficking the rights to Donegan DNA on a black market for it.

Government Corruption Exposed

https://gangstalkingexposed.substack.com/p/about-gangstalking-explained-blog

There is a very sensible Substack thread called Government Corruption Exposed. In the thread they talk about DHS programs, FBI conducted frauds, and the methodologies illegal programs run by the government use. These range from using snitches to plant evidence to using snitches to assault and murder others, conduct break-ins, use of private security firms or neighborhood watch groups, even religious groups, as part of "Community Based Agents." These CBAs are part of acting out government scripts and acting on government orders. It is generally all illegal and it is this I assert has been done to me. I cite the group in my books and the activities in my books these groups are carrying out including snitch conducted murders COINTELPRO style to silence whistle-blowers like Jen Moore and others and to steal my office equipment, have "random attacks" on me (and even as much my computer) while I am at bus stops, etc., in similar activities.

I have said when I was camping near a lake I was at times fearful some SEALs time might come out of the water being to near it and I might be asleep and I was fearful in San Franncisco of being to near a window when I was writing and the same in Texas.

The death threats are real and credible and constant, and government backed. I do not recommend being in custody of the USA in either an institution or jail or prison, and as Jen Moore said in her own voice still available in my archives and Youtube if they can get you in there (and perhaps just to a CIA doctor) you might well be killed there by operatives of the Deep State.

Jen Moore both described Democracy Partners that Tom Donegan and Mark Weirness might have been a part of and John Podesta. She also described a program run from the (DIA did she name) that had government officials use their own family members for role-plays carried out by theatrics. In my case they assert they have police family members and outlandishly have asserted that placing child porn on me (their police relatives) causes us to be family members since I pay for it with sexual release semen. As I have said all along these are not only racketeering crimes but human rights crimes and evolve from my family genome in Atomic testing and WWII heroes legacy (pilot and Von Trapp Singers) now being a black market used by illegal demands for DNA.

I have said to a local strip club van driver once while talking about housing and to others on the same subject that if the political officials want you homeless than no matter what you will be homeless. They just have to whisper a few words at the leasing office or plant someone there, and if they want you not to have a car the same thing. Similarly if they want you to have a home you will have one no matter what, they will make that work out.

In Texas I am a targeted of frauds not a person living in safety. Every bit of information I have is that the FBI DHS programs are nation-wide and world-wide and the elections of 2024 changed nothing at least so far. I do not know what Oregon will be like but I do hope for better weather and also I expect a few other things. In Seattle and in Austin violent gangs and prison ex-con groups and black lives matter and Antifa are part of city

politics. I had gotten text messages about seeking housing at City Hall in Austin but I thought the whole thing too gang connected and would rather not.

I am entirely O.K. with the slower pace of less edgy cities like Austin wants to be and is becoming. The quiet life as I told a couple of court officers recently appeals to me. I am hoping for quieter and more sober city life in the Oregon. They seemed to be very sympathetic to seeking a quiet life an thought it not a bad idea at all so I appreciated that. No bad words were said of Austin just that smaller city life can be the quiet life.

I do think the Austin government was going along with Democracy Partners, Jessica Aber was a part of that, and I am happy to leave that behind. Religious groups also have too much power in Texas as does the Bush wing of GOP

I intend to put more tips into US Intelligence Community agencies. It is my belief I can add information to the CIA origins of Barrack Obama Jr. from the cold war time frame he was born in and contemporaneous with his birth was the emergence of sovereign nations like Ireland seeking independence or Communist intelligence. I believe the Kennedy assassination is tied to the CIA plans for Barrack Obama Jr., and believe he was born in the USA.

I also believe though (as Col Fletcher Prouty of the DIA overthrow team) believed the CIA should have influence as to future presidents of the USA and covering the CIA origins of Barrack Obama Jr. has led to the assassination of government figures, private parties, and harassment of me alike.

If my family genome is tied into this same history as I believe it is that is the reason a crime ring has emerged around it.

Records reviews and housing frauds, elder abuse and assaults, and racketeering wider and not precisel tied to only MacLamar

from: Edward Donegan
to: "ana.hughes melissa.heifet Chakee Tillman

I assert for many reasons tied to the Donegan family history I have been sabotaged by racketeering conduct using itermediareies to create problems and ARC of NOVA and Tom Donegan and Mark Weirness had been among them as elder abuse admisstrators of the trust encouraging frauds against me driving me to Texas were the frauds persisted with new allies,

The housing problems go back to California and at this time I am the only party with the contiguous history of that so I provide it here Jason Maher: I lived in San Francisco with a goth scene DJ Jason Maher. At about 2007 I asserted there was a wide ranging highly placed conspiracy and it included downing of airliners and I had heard IF I left to live with my mother the flight I would board would be "targeted" which is it seems an insane allegation but those who were following me at that time and I was being followed were asserting they could and would do that, This would if it were true mirror what happened to Dorothy Hunt on UAL FLight 553 and I asssert like the Hunt Family the Donegan family were tied togetherin the 1950s with COl Prouty, Richard Bissle Jr., the Dulles brothers John Foster and Allen Dulles, and others.

Part of that situation was a misemearner arrest by the National Isntitute of Health. I had been contacting the about the Genome Progra and the odd dyslexia ADD and related genes I had and searced WWII history sites for atomic testing issues for this and also Stormfront a site of Nazi history and science, I could not find the Donegan or Gainey name (my mother's maiden name) as recognized by anyone and much genetics are discussed and debated in thsoe forus. I offered the FOXP2 gene I had ran in the Schawrzenegger family and others but they found my comments that his bulkiness the Austrian super-hulk to be less than complementary to one of their heroes plus I was too pro-islrea though as a moderate by any other standard..

Upon misdemeanor arrest for harrassing and annoying the Freedom of Information OFficers of the NIH I was released about 2010 and moved to Arlington VA to live with my mother, I begain to feel stalked and Tom Donegan seeed to have contact with the neighbors who were moved in and engagting is survelling and harrassing me., TWice I was arrested for confontations with these neigbors leading up to about 2013 in custody.

In this same time frame Toh Dunham of San Francisco began to see he annd I were being framed by fabricated evidece of a call girl schee that inclluded the exploitoin of teens. It is not that I myself had never download any teen bikini (or possible teen) binkin pics especially since any web material I view only would be of adult looking females with adult characteristicss.

These appeared to be a slander campaing and even racketeering and money laundering sceme with an impersonator of me in those activities, confessing to those activitis, and asserting things about me (while in my identity) that were far removed fro the truth and clearly faked.

I came to Texas in 2014 following an eviction confronting those neigbors. Oddly at that time the allegations of Jen Moore come into pllay. One of the Podesta brothers, Maya Harrris, James Alefontis and others had organized an illegal progran debated in the new Pizzagate, and allegation that if a person (I assert I am that person) orders Pizza, a hambrgher, anytying else it is asserted that was code word he was a child exploiter and engaged in those activities. This extortion of false allevations and demanding a fee for false alleations as to my conduct were slandering my use of apartments, and other locations.

Maya Harris of that meeting is a key figure. She is married to Tony West of a major law fir I had tried to recruit as I appraochced the Human Gennoe Porgram and the Congressional Black Caucus role that Barrack Obama Jr was participating in, I did not realize Tony West was also the canpaign chair for Califronia for Obama For President as Podesta had a key role.

So some programs were being run, To Donegan had been meeting with key figures in the DNC, and a COINTELPRO program was "targeting" me using homelss people to conflict engage with me.

In Nueces Countny Texas I arrived with bad credit and remained homelles a while. After a vagrancy arrest I was able to lease Ball Park West but I beieve behind the scense ARC of NOVA undermined that lease that was cancelled on their side illegallly.

My leasing from Mac Lamar began with Sout Staple Street. That undercover operation their used thugs and mentall health patients., I assert that at an arson some of these skid row thugs had seemed to have burned some bodies in the tub and this is in ny books.

From there I went to Califironia and renttals were saboutaged there as well and Jen Moore who had been traveling along with this stalk group died asserting the stalkers were creating frauds harrasssing and defrauding me and the trust for reasons dating back into MKULTRA

and my genoe that I had been reseaching since 2002 or so

Sally Hernadez of GVA I think was Golds Gym and Veterans Administration connected people took over the MacMlamar lease of 1001 N. Water street. Thugs or the mentally ill were moved in, break-ins occured, and the buildign was finally shut down all together. By this time MacLamar I had signed the lease with was out of the picture but Allen of MacLamar was having meal at the bar at executive surf club where I encountered him. I had talked with him I had a good track record on rent, etc, and maybe I could go bac to a MacLamar lease. He agreed, I went to the Mac Lamar site, found 1513 Ocean Dr #5.

In these lease too the renter changed out to a new management company and this new manageent compay eviced me.

It is a long story but Mac Lamar was at times replaced as the leasor. I asert the covert group moving in had crininla operations underway using me as a Target for frauds.

In order for a group to be successful in subverting a government, the group itself and its ideas must be seen as an acceptable alternative to the status quo. However, groups that work toward subverting a government, in many cases, follow ideas and promote goals that on their surface would not receive the support of the population. Therefore, “to gain public credibility, attract new supporters, generate revenue, and acquire other resources, groups need to undertake political activities that are entirely separate, or appear separate, from the overtly violent activities of those groups.

Him Mom I am a Targeted Individual

Hey Mom, I'm A Targeted Individual by Cathy Meadows, M.A., Clinical Psychology Consultant, Advocate, Witness for Targets of Bullying, Workplace Mobbing, and Covert Harassment and Surveillance

Kathy Meadows notes in most cases these corrupt use of law enforcement system often start in rural and corrupt areas.

The strength that the targets possess lies in their diversity. They are both male and female, and they hail from all races, lifestyles, political persuasions, backgrounds, and genders. They are conservatives and liberals, rednecks and hippies, good ole boys and southern belles, patriarchists and feminists, white collar and blue collar. They represent every job description, educational level, and come from every corner of the country. They stand together, undivided by superficialities. This is their strength. They are simply Americans.

Often, people are targeted because they did something right. Targeting can happen to anyone who sounds the alarm about something ethically, morally, or legally wrong. Many are targeted for other reasons, but most

Homeless and indigent people are often used to harass targets and all it takes is $5.00, a threat, a sandwich, a cheap bottle of booze, or a very small amount of their favorite drug to draw them in. In fact, because they have nothing, almost anything you give to indigent people could seduce them into committing a felony. You may not suspect that someone who is driving a car and is dressed well is poor but think again. Many of the vehicles that the stalkers use are lent to them. Also, they may be given free haircuts, clothes from a 2nd hand store, or other goodies that the overseers got for free on Craigslist. Sometimes people who have their own places and cars have over-extended themselves financially and will work for as little as $20.00 a day, to follow a target around, menacingly. Plus, figure in those stalkers who have been deluded into thinking that they're some kind of James Bond who are saving their communities by harassing a "dangerous person who has done bad things" and the criminal perpetrators have themselves a free army.

The pay scale, if there is one, is very low and people who work at fast food restaurants make more. However, the stalking schedule is often flexible and many guys do it just to impress the females, and vice versa. Sometimes, sex is involved. Seduction is used as much as possible to get people to commit these types Of felonies. Most of the time, the top stalkers just have to flirt with the recruits and offer the promise of something that's probably never going to happen. Occasionally, cheap or compromised prostitutes can be used for cheap or for free, in trade for getting someone to do this type Of stalking work. Further, illegal aliens, or ex-convicts, can sometimes be threatened. or convinced to take part, since neither may have access or the desire to do profitable, steady, and legal work. Further, lots of people in this industry, and it is a business first and foremost, work on trade. Many stalkers get free stuff and give it to the sub stalkers (TV's, computers, etc.). They cut deals with criminal locksmiths, private investigators, and street hackers where favors are exchanged. In cases of personal vengeance, a "trusted" community member may falsely turn the target's name over to a "friend" who knows someone, who then gets the target put on a "terrorist watch list." Sometimes, especially in small towns where's there's not much to do, many guys can be incited to go on a wilding against a law-abiding citizen, or against someone's ex-wife or girlfriend for being a "bitch," just for the fun of it.

While the stalkers may have been told slanderous things about the target, it's not about that. For these types of stalkers it's mostly about testosterone, bad parenting, and boredom. For the lead perpetrator who set the dogs loose, it's about rage, fear, and revenge, and for the professional contractors, it's about money. Generally, the only people who get paid a living wage are the contractors at the top of the food chain.

Defamation of Character

As previously mentioned, first make sure that the target has shelter, food, water, and a social outlet or two. Since illegal entry is prevalent among targets, the next thing to figure out is safety. Locks should be changed and large, inside, sliding gate locks should be installed, along with the new locks.

Slander can rally many people in the community, particularly financially marginalized people, young people, emotionally damaged persons, and angry middle-aged men (David Lawson, Cause Stalking: Terrorist Stalking in America) against targets.

Slander is free, easy, and effective-and it's the foremost tool used by the perpetrators because it fuels hatred for the target. It's virtually impossible to carry off the targeting without it. Slander can mobilize an entire community against an individual, inducing them to commit felonies for fun and relaxation-similar to how throwing Christians to the lions entertained Ancient Rome. It also causes psychological confusion in the target, who worries about what's being said that's so horrific that neighbors, co-workers, and associates turn against them. This tactic often lowers self-esteem and damages egos. Combined with sleep deprivation, 24/7 harassment, worry, and confusion, it can lead to mental illness-or so the perpetrators hope.

Quite often, fake police documents are distributed around the target's locality, falsely describing them as a community danger. Targets report that these documents often accuse them of sex crimes, theft, violence, or terrorism. Those who distribute these illegal documents usually show fake police badges to support their claims. However, law enforcement doesn't knock on doors.

The best way to verify slander or claims about someone is to visit the relevant service office in person. Ask if they sent anyone to your neighborhood. Have the name, card, and photo of the stalker on your phone. They'll likely tell you they haven't-because it's time-consuming and illegal. Let me know how this works for you.

These stats are often posted online, and in 99% of cases I've worked on, the accusations are criminally false. Sometimes, these attacks backfire on the stalkers, as spreading slander and falsified documents proves the target isn't imagining things-it’s proof someone is targeting them, and it's illegal. Prison awaits those who cross paths with retaliatory targets who have resources.

If The Harassment Is So Prolific, Why Can't I See It?

This kind of stalking is called "felony stalking" and it's criminal in all 50 states. Great pains are taken to make the harassment invisible to everyone except the target-hence "covert harassment and surveillance." Only the target is meant to witness it. This frustrates targets trying to explain their experiences, since it's not readily noticeable.

Being followed on highways can be dismissed as bad driving; vandalism as normal breakage or kids messing around; illegal entry and tampering as forgetfulness. This is intentional. The program is designed to make everything seem "normal," but the constancy, elaboration, and blatancy betray the truth.

Another reason for secrecy is that perpetrators don't want to be known. They portray themselves as good, loving people to avoid disgust from others, hiding behind religion, public service, or philanthropy. The program protects the criminals' reputations.

However, many in the justice and executive branches know about this targeting. Many targets have won lawsuits for whistleblower retaliation or workplace stalking.

These gangs only go after rich people if they're old, senile, or isolated. If someone appears socially or psychologically weak, they're more likely to be targeted. Even with good family support, targets can be vulnerable if they're seen as weird or behave irregularly. This makes it easier to label them mentally ill and steal their money-often the motive behind targeting the wealthy.

How Does This Program Get Funded?

[They waited for my parents to die and corrupt trust administration - Ed Donegan]

The program is funded by whoever the target angered or frightened. Corporations and businesses threatened by lawsuits or complaints often hand the case to attorneys, who then hire contractors to discredit and nullify the whistleblower. In Ed Donegan's case, the trust fund pays out to those spreading the slander.

‘Pizzagate’ gunman fatally shot by police outside Charlotte in traffic stop By Jeff A. Chamer Updated January 09, 2025 6:02 PM

The Salisbury man who died Monday after he was shot by two Kannapolis police officers over the weekend was the ‘Pizzagate’ gunman arrested in Washington, D.C., in 2016 after he terrified people with a loaded AR-15 inside a restaurant. Edgar Maddison Welch, the man killed, made national headlines in 2016 when he entered Comet Ping Pong, a pizza restaurant in Washington, D.C., armed with an assault rifle and loaded revolver. He drove from Salisbury to the nation’s capital in search of an alleged child sex ring linked to Hillary Clinton - something he learned about from a fake news story, The Washington Post reported.

Read more at: https://www.charlotteobserver.com/news/local/crime/article298247913.html#storylink=cpy

From 2001 to 2009, Tony West was a litigation partner at Morrison & Foerster LLP in San Francisco. He also served as the California co-chairman of Barack Obama's 2008 presidential campaign.. During 2001 through 2009 I was in a dispute with the N.I.H and FBI and was trying to submit evidence of their frauds to Morrison & Foerster LLP.

In California I was a responsible scene memer and adult of normal morals and ethics and reporting trafficking to police when I encountered it. When three female drug addicts seeking drug money tried by violence to "turn a woman out" I offered to defend her story to police if she would turn her assailants in as to filing a report against them because they told me the same reason for the attack and I had warned the victim away from those assailants even before the attack. Another person was an underage bondage partner to Nathan Bunny . A friend and in fact several of them took active steps to bring that to an end, it first came throught contacts into behavioral health by the victim then an arrest of Nathan Bunny. When my best friend Shawn of that time was accused of sexual assault at a party I had thrown in my house I isolated him, found supporters to help the reported victim and offered to call police. THe victim recanted to her friends at the party and admitted she had behaved oddly on drugs and I took her and other's word for it.

It is possible this unfair politically motivated smear of me went from California into a larger operation of framing accross several states alleging I was after "pizza" not pizza in pizza shops. Oh how confusting to people that could be.

I need to unpack the word "unfair." The conspirators of an illegal scheme are so brazen as to used forged confessions in the legal system, courts, and behavioral health care trust funds even though the allegations and even fabricated confessions are false. Many go along with the fraud either for political reasons and wanting to sabotage the right wing OR to profit from an extortion of sex offender predicated on the belief the sex offender has something of value that could be blackmailed over. This is are Revenge Stalk where a lynch mob in an office or public place has been expose to false allegations about a person and are invited to retaliate against that person.

Next on the OpEd agenda is that the high power interests that created an abusive smear campaign of me unfair to me are doing to to prevent the truth of the Kennedy assassination from coming out, the operators of the black-ops program continuing the suppression of the USS as a republic as global elements use subversion against the he politics and politicians of the Republic of the USA.

Finally I will show and example of the unfair trauma to me naming names of some locations and how the scheme operates. The section title is abrasive and uses a term I don't like but is needed to make a contexutal point.

The title of the final section is *Faggot, Faggot Heckler, Faggot Veto* and the artklce explains violations of a person's space to program trauma into them.

I spent years of my life in San Francisco with as many or more gay friends than straight ones, the Leather Community and Gay Community have much overlap as does paganism, etc., I always objected to Christianity interfering with free love and wrote on the topic for 30 years or more. "Freedom to Reason is Freedom [for gay couples] to cruse [each other.] It was a play on Freedom to Reason is Freedom To Choose a John Milton statement about self-governing in the Age of Reason.

The way a person is traumatically vioiled is the alteration of context. In public we share space with those who are not use or like us. That is fine. But when those who do not represent who we are (different cultures, language speakers, sexual orientations, religious orientations) force themselves traumatically into the individual space of a Stalk victim the in self of the stalk victim gasps for air and normalicy but will never find it. This is the creation of Complex Post Traumatic Stress Disorder and the use of fear, terror, or things of disgust to a stalk victim to impose the need for some type of attempt against the stalkers who will deny stalking.

These types of traumatic gay traumas exposes were at Oil Can Harry's, Halcyon, and other locations. The first two I was evicted over my complaints on the illegal components to all of this. The Arlington central Public Library evicted me under the same fight. I continue to experience conduct similar to this at Iron Bear. The adult clubs are more racially oriented in "happy slapping" making sure the imagery is disgusting to me as I write in those locations) and focus on clear smear campaigns as to wether I like adult woman sexuality or minors.

Very rude, abusive, and not uncommonly raially charged confrontations in caberets participating in this have been common at the time I am trying to contact Texas Rangers about the corruption or officials (from Austin now in Congress) I think had roles in COINTELPRO program attacking me that is illegal. In the case of Red Rose I was booted out at the exact moment I was completing an email to Texas Rangers on corruption. Similar with a Starbucks. On batter power I did finish it out accross the street and provided the info I was attacked by rudeness as I was sending it delaying the send. Stalkers seem to have most police and first responders in their back pockets but I don't think Staklers like having to pull strings and ask for silence or stand down IF the stalker can prevent that from happening in the first place.

Since the eviction from my homes and ending up homeless I can only work on my books at all at a 30 percent rate of what I could do house. Since the loss of the library I have lost 70 percent of what is left.
